PERSONNEL PLACEMENT

YOUR ad here reaches over 32,000 foremost scientists in education, laboratories, and research foundations in the U. S. and 76 foreign countries—at a very low cost.

CLASSIFIED: 15¢ per word, minimum charge $3.60. Use of Box Number counts as 10 additional words.

DISPLAY: Rates listed below—no charge for Box Number. Monthly invoices will be sent on a charge account basis—provided that satisfactory credit is established.

Single Insertion $19.50 per inch
7 times in 1 year 17.50 per inch
13 times in 1 year 16.00 per inch
26 times in 1 year 14.00 per inch
52 times in 1 year 12.50 per inch

For PROOFS on display ads, copy must reach SCIENCE 4 weeks before date of issue (Friday of every week).

POSITIONS WANTED

(a) Bacteriologist, Ph.D.; three years, research assistant, university dialect; Microbiology—Ph.D.; Immunologist—Ph.D.; well trained malariologist and related protozoan disease research. Experience on staff, research institution. Medical Bureau, (Burneice Larson, Director), Palmolive Building, Chicago.

(b) Botanist, Ph.D., male, 37. Morphology, anatomy, taxonomy, general botany, lower plants, biological survey. Research and teaching experiences, publications. Desires teaching and/or research. Box 126, SCIENCE.

(c) Biologist, August Ph.D.; Bacteriology—Zoology—Biochemistry—training desires academic position, small college. P. Crook, Patterson Hall, State College, Pa.

Position for Zoologist: Ph.D., specializing in cytology, embryology, with teaching, research, and administrative experience, publications, desires teaching position. Box 125, SCIENCE.

Position for Zoologist, Ph.D., 34, desires change in teaching position. Prefer small town college or university which encourages research. Embryology, botany, general zoology, invertebrates, ornithology, ecology, evolution. Broad interests. Box 126, SCIENCE.

POSITIONS OPEN

Bacteriologist to head Chemotherapeutic Department of 20 in well-known eastern pharmaceutical company. At least 10 years of post-doctoral experience required with some knowledge of parasitology and virology. Employees know if qualified. Salary $6000-$8500. Send particulars first letter. Box 127, SCIENCE.

Biochemist; Ph.D. preferable; male; head endowed arteriosclerosis—cancer research laboratory; medical school, New York City. Knowledge ultracentrifuge, electrophoresis, animals. Teaching assignment if qualified. Salary $6000-$8500. Send particulars first letter. Box 127, SCIENCE.

(a) Biochemist; male; M.S. or Ph.D.; act as consultant to staff members and teach biochemistry to students; 350 bed general hospital; MidEast. (b) Bacteriologist: female; age 20-35; 110 bed children’s hospital; resort city; Southwest. Experiences: experience with radioactive substance; supervise medical-chemical laboratory; develop tests and assay methods; experience dealing with large teaching hospital. (e) Organic Medicinal Chemist: Ph.D. for organic research division; experience not important; pharmaceutical house. Woodward Medical Personnel Bureau, 185 N. Wabash, Chicago.

Literature Chemist—M.S. in biochemistry with minor in organic chemistry to assist senior scientist in literature searching, abstracting and evaluation of scientific data. Reading knowledge of scientific French and German desired. Age 25 to 30. Comprehensive benefits program. Send complete information of education and experience. Box 124, SCIENCE.

Research Technician. Biochemical research laboratory experience preferred. Send pertinent biography to Research Dept., Scripps Metabolic Clinic, La Jolla, Calif.

POSITIONS OPEN

(a) Physiologist, preferably physician, Ph.D., eligible, experienced cardiovascular diseases, hypertension; physical chemist, immunologist, pharmacologist; P.h.D.’s with minimum two year post-doctoral training; post-doctorate experience; advantageous if trained in isotopes; research institution. East. (b) Research assistant, well qualified tissue culture, histology; university research department; South. (c) Instructor in physiology; small university; West. (d) Biochemist, physical chemist or microbiologist qualified to serve as group leader; supervisory and industrial experience required; large industrial company, Chicago. (e) Several parasitologists; Ph.D.’s; foreign appointments. S. A. S. Medical Bureau, (Burneice Larson, Director), Palmolive Building, Chicago.

Research Technician. Biochemical research laboratory experience preferred. Send pertinent biography to Research Dept., Scripps Metabolic Clinic, La Jolla, Calif.

SCIENTIFIC PERIODICALS

Your sets and files of scientific journals are needed by our library and institutional customers. Please send us lists and description of periodical files you are willing to sell at high market prices. Write Dept. AIS, J. S. CANNER, INC. 1041 Boylston St., Boston, Mass.

Current Articles Unlimited

- Prompt weekly Table of Contents service.
- Approx. 400 medical-science-technology journals.
- Excellent for libraries. Many uses.
- Spot-lights articles when published
- Cost: Complete coverage $75 annually.
- Reduced coverage $25 annually.
- Write for details:

New! B-D-H Micromanipulator
Sold Exclusively by American Optical offers

UNSURPASSED PRECISION

In answer to the ever more exacting requirements of modern cellular research, American Optical announces the B-D-H* Micromanipulator (patent applied for). It is extremely easy to operate and comfortable to use yet is capable of movements precise beyond the resolution power of modern compound microscopes. The "learning period" for operation is usually a matter of two or three hours since the necessary skill and dexterity has been built into this electrically actuated instrument.

It eliminates a major part of the tediousness usually associated with micromanipulation. "Set-up" time is greatly reduced. Now the operator can apply his greatest energies to the actual microsurgical task.

Up to four different microtools can be placed in the microscopic field at the same time. Any selected pair can be used simultaneously while the other pair is in constant "stand-by" readiness. Control of the microtools in all directions is accomplished by a pair of joy sticks. Microtools are held in easy-to-change, easy-to-adjust magnetic tool chucks. Motions of the microtools follow the natural directions of the hands, while a gain control allows infinite adjustments of the hand to microtool ratio. A sliding, locking microscope table allows quick changing of microtools and tissue chambers. The massive common base assures rigidity. Operating by means of thermal expansion of electrically heated fine wires, there are no moving parts to wear out, no glass or rubber parts to replace.

American Optical
