Low-Energy Physics from a High-Energy Standpoint: L. I. Schiff .... 881
Science and Statecraft: W. S. Cole ................................................................. 885

News and Notes
Marine Biological Laboratories; A New Design for Science; and Regular Departments ......................................................... 887

Technical Papers
Demonstration of Tyrosinase in Melanocytes of the Human Hair Matrix by Autoradiography: A. Kukita and T. B. Fitzpatrick ...... 893
Effect of Feeding Dogs the Flesh of Lethally Irradiated Cows and Sheep: E. H. Wasserman and B. F. Trum .................................................. 894
Inheritance of High Total Carotenoid Pigments in Tomato Fruits: A. E. Thompson .............................................................. 896
Unusual Value for Protein-Bound Iodine in the Serum of the Opossum: S. Katsh and E. Windsor ................................................ 897
Synthesis of Oligosaccharides from Maltose by Rat Liver: K. V. Giri et al. ..................................................................................... 898
Chemical and Biological Studies on 1,2-Dihydro-s-triazines. XI: Inhibition of Root Growth and Its Reversal by Citrovorum Factor: L. Rüdenberg, G. E. Foley, W. D. Winter, Jr. ........................................... 899
Detection of Coronary Atherosclerosis in the Living Animal by the Ergonovine Stress Test: S. H. Rinzler, J. Travell, D. Karp .......... 900

Communications
Isolation of Anaerogenic E. coli 026:B6 Serotype from a Case of Calf Scours: P. J. Glantz and H. W. Dunne ........................................ 902
Use of Centralized and Departmental Libraries in College and University Geology Instruction: F. S. Honkala ................................................. 902
Some Aspects of State Academy of Science Publications: H. R. Skallerup ......................................................................................... 904

Book Reviews
Protozoology; The Pineal Gland; K* (*Krebiozen—Key to Cancer?); Elements of Ecology; Der Scharlach und seine Behandlung; The Psychological Variables in Human Cancer; Progress in the Chemistry of Organic Natural Products; A Budget of Paradoxes; Handbook of Textile Fibers; and Miscellaneous Publications ................................ .................. 905

Advantages of an Atlanta Meeting ............................................................... 7A
Meetings & Conferences ........................................................................... 12A
