THE original Van Slyke principle and technique remain unchanged, but these improvements are noted in this present-day model: more substantial construction, adjustable leveling bulb, new glare-proof manometer and burette illumination, independently controlled lights and motor, mounted wash bottle and receptacles for glass tips of suction and distilled water tubes contribute to ease and accuracy of operation.

"A very good popular book on vitamins."
—SCIENTIFIC AMERICAN

VITAMINS IN THEORY
AND PRACTICE
FOURTH EDITION
by L. J. Harris

A NARRATIVE of that truly romantic subject, the history of vitamin discovery and research, made intelligible and interesting for the general reader. At the same time, an attempt has been made to include some mention, at least, of all the important findings of modern research so that the book will be useful to professionals.

APPLICATION FOR HOTEL RESERVATIONS

122nd AAAS MEETING

Atlanta, Ga., December 26-31, 1955

The list of hotels and their rates and the reservation coupon below are for your convenience in making your hotel room reservation in Atlanta. Please send your application, not to any hotel directly, but to the AAAS Housing Bureau in Atlanta and thereby avoid delay and confusion. The experienced Housing Bureau will make assignments promptly; a confirmation will be sent you in two weeks or less. As in any city, single-bedded rooms may become scarce; double rooms for single occupancy cost more; if possible, share a twin-bedded room with a colleague—and also save money. Mail your application now to secure your first choice of desired accommodations. All requests for reservations must give a definite date and estimated hour of arrival, and also probable date of departure.

CLEAN YOUR GLASSWARE 4 TIMES FASTER!
with Labline POWER SCRUB

6 BIG SAVINGS FOR YOU
1—REDUCES BREAKAGE... cuts down replacement costs.
2—SPEEDS UP WASHING... Power Scrub greatly reduces washing time.
3—CLEANS GLASSWARE CLEANLY... cleans every surface instantly. No soaking.
4—SAVES TIME... allows personnel to do other important work.
5—SAVES SPACE... Mobile Cabinet Model on casters can be moved anywhere.
6—SAVES MONEY... pays for itself in a few months.

POWER SCRUB
(MOBILE CABINET MODEL)
Has stainless steel sink bowl, work tray and large cabinet storage space. On casters.

Designed for heavy, continuous use in laboratories of all types: hospital, chemical, petroleum, pharmaceutical, bacteriological, food, etc. ...in fact wherever rapid, low cost volume washing of glassware is needed. Power Scrub cleans test tubes, beakers, flasks, jars, vials, bottles, syringes, etc., completely removing all dirt, blood, chemical residues, cultures. Thorough washing action ... no spotting. Four power-driven brushes permit simultaneous outside and inside cleaning. Selection of 9 interchangeable Nylon brushes and flexible shaft for every kind of glassware. Motor is U. L. approved. Investigate the outstanding features of Power Scrub! ... will pay for itself in a short time. 3 models available. Write for 4-page bulletin.

TYPICAL USERS' COMMENTS
"... after 3½ years of trouble-free service we feel you should be commended on the performance of your product."
"... your washer is the first device we have had which washes our laboratory glassware to our requirements."

LABLINE, INC.

PERSONNEL PLACEMENT

Astronomer, young man, Ph.D., in astronomy, lectureship, experience in an interest in planetarium education. Would assume major responsibility for expanding college lecture program, and would assist in preparation and presentation of the popular demonstrations. Write full particulars to Mr. J. M. Chamberlain, General Manager, American Museum–Hayden Planetarium, New York 24, N.Y.

New Developments at All

While the greatest portion of our laboratory's staff is involved in operations along the broad traditional base of electronics, we have a growing group of scientists involved with medical electronics and physics.

Our aim in this field is the application of modern methods of physics, electronics, and data handling to problems of medical and biological investigation.

There are several positions available in our current research and development program. These are permanent positions, requiring people with extensive backgrounds of education and experience in physics and biology. Applicants who can qualify will find the best opportunities for technical and professional growth at Airborne Instruments Laboratory. Send resumes to Howard Greens, Director of Personnel, or call Pioneer 2-0600 for interview appointment.

SCIENCE, VOL. 122
Revolutionary vacuum tubes

James E. Beggs of the G-E Research Laboratory combines new knowledge with new materials and new processes

Jim Beggs has a unique talent for employing research results from many scientific fields to produce ingenious new vacuum-tube concepts and designs. Most recently, the man who 23 years ago demonstrated the first practical all-metal tube has pioneered what will certainly become a long line of microminiature ceramic vacuum tubes. The G-E Tube Department’s first production version is the 6BY4 triode, which promises to bring UHF television within the range of many heretofore “televisionless” homes.

Beggs’ tubes are no bigger than a shirt stud, but they will be invaluable to both industry and defense because of their low-noise and high-gain characteristics, usefulness at microwave frequencies, ability to operate while red hot, and unusual ruggedness. To achieve this revolution in the vacuum-tube art, Beggs coupled his own ingenuity in designing tubes with the work of other G-E scientists — new fundamental knowledge about titanium, new insulating ceramic materials with special expansion characteristics, and new processes for sealing metals to ceramics.

Progress Is Our Most Important Product

GENERAL ELECTRIC
You select from a 1736-page catalogue and supplement
An encyclopedic reference source with factual, detailed descriptions.

You deal with headquarters
All orders filled promptly from one vast warehouse.
Competent technological staff on call.

You draw on large stocks
Adequate stocks of 22,000 prepackaged items for immediate shipment.
Widest assortments of Corning, Kimble and Coors items available from any single source.

You save time and money
Expediting unnecessary — 83% of orders shipped day received or day following.
Accurate invoices and packing lists.
Adequate packing which keeps breakage to less than 1/20 of 1%.
Advance quotations unnecessary — one-price policy insures lowest prices to all buyers.

You are assured of satisfaction
Stocks carefully selected and continually inspected for dependable quality and satisfactory performance.
Prompt refund for any item found unacceptable for any reason.
