SCIENCE

6 January 1956
Volume 123, Number 3184

Editorial
Extraverted Perception .................................................. 7

Articles
On "Science and the Supernatural": S. G. Soal ............... 9
Comments on "Science and the Supernatural": J. B. Rhine ............ 11
Compatibility of Science and ESP: P. E. Meehl and M. Scriven .......... 14
Probability, Logic, and ESP: P. W. Bridgman .................. 15
Where Is the Definitive Experiment? G. R. Price ............. 17
The Experiment Should Fit the Hypothesis: J. B. Rhine .......... 19

News of Science
NBS Jerkmeter; Creation of Rare Minerals; Anthropometric Map of Poland; AAAS-Rosenthal Cancer Prize; AEC Division of International Affairs; Radioactive Pharmaceuticals; Flint Ridge Cave System; News Briefs; Scientists in the News; Necrology; Education; Grants, Fellowships, and Awards; Miscellaneous .......................................................... 20

Reports and Letters
Antagonism of 5-Hydroxytryptamine by Chlorpromazine:
E. P. Benditt and D. A. Rowley ........................................ 24
Method for Distinguishing Intact Cells from Free Nuclei:
R. Barer, S. Joseph, M. P. Esnouf .................................. 24
Leap Year and Calendar Reform: G. W. Walker ............... 25
Effect of Ergot Drugs on Betta splendens: L. T. Evans et al. .......... 26
Formation of Radioactive Protein-Bound Moniodotyrosine by Stored Thyroid Slices: S. W. Mayer, F. H. Kelly, M. E. Morton .......... 26
Protection of Mouse Fetus against X-irradiation Death:
R. Rugh and H. Clugston ............................................ 28
Serum Cholesterol in Men in Basal and Nonbasal States:
A. Keys, J. T. Anderson, O. Mickelsen ............................. 29

Scientific Meetings
Antibiotics in Agriculture; Meeting Notes; Forthcoming Events .......... 30
Science 123 (3184), 7-34.
