Classified: 18¢ per word, minimum charge $3.60. Use of Box Number counts as 10 additional words.

Copy for classified ads must reach science 2 weeks before date of issue (Friday of every week).

Display: Rates listed below — no charge for box number. Monthly invoices will be sent on a charge account basis—provided that satisfactory credit is established.

Single insertion $2.00 per inch
13 times in 1 year $1.00 per inch
26 times in 1 year $0.50 per inch
52 times in 1 year $0.25 per inch

For proofs on display ads, copy must reach science 4 weeks before date of issue (Friday of every week).

**Positions Open**

Bacteriologist-Ph.D., with training and experience in medical bacteriology, microbio logic, and physiology. Knowledge of and experience in research investigation in bacterial chemotherapy, although studies related to microbial metabolism and chemistry, are of interest. Short-term appointment. Applicants should possess a master's or bachelor's degree in chemical engineering, and preferably possess some research experience. Send details regarding training, references, and salary required to the Acting Director, Fisheries Research Board of Canada, Technical Station, Vancouver 2, B.C.

**Biochemist**

Applications are invited for a position as biochemist to study nutrition and metabolism of marine bacteria and various problems concerned with the biochemistry of fish. Knowledge of both geometric and tracer techniques is desirable, and a Ph.D. or its equivalent from a recognized university is required. Send details regarding training, references, and salary required to the Acting Director, Fisheries Research Board of Canada, Technical Station, Vancouver 2, B.C.

**Chemical Engineer**

Applications are invited for a position as chemical engineer to initiate engineering research on problems concerned with processing of fish and to assist in engineering work already in progress. Applicants should possess a master's or bachelor's degree in chemical engineering, and preferably possess some research experience. Send details regarding training, references, and salary required to the Acting Director, Fisheries Research Board of Canada, Technical Station, Vancouver 2, B.C.

**Positions requiring degrees in medicine or science**

Bacteriologist, Ph.D., preferred; familiar with body chemistry, properties and modes of action of drugs; background in chemistry, physiology, pharmacology; product development laboratory; well-known midwestern concern. (d) Research Microbiologist; Ph.D.; preferred in experience in streptococci, primary, intercurrent, fever, and allied diseases; research group affiliated with well-known eastern medical school. (e) Medical Bacteriologist; M.S. with highly qualified Ph.D. in active laboratory; large general hospital; Midwest. (c) Medical Bacteriologist; M.S. also qualified in biochemistry; experienced proteins, carbohydrates, enzymes; immunology department, well-known eastern pharmaceutical house; $4500. (f) Biochemist; supervise active clinical chemistry department, 300-bed general hospital; some research opportunities; lovely southern city. For further information write Woodward Medical Bureau, 185 North Wabash, Chicago.

**Scientific Journals wanted**

Sets, runs, and volumes bought at top prices. Your wants supplied from our Back Files of over 3,000,000 periodicals. Abrahams Magazine Service; N.Y.; S. N.Y.; Boston 19, Massachusetts.

Your sets and files of scientific journals are needed by our library and institutional customers. Please send us list and description of periodical files you are willing to sell at high market prices. Write Dept. AB. S. CANN, Inc., 101 E. 42nd St., New York 17, N. Y.

**Electroencephalography**

Specialization opportunity in electroencephalography for psychiatrist or neurologist. General hospital, 1067 beds; teaching and electrocorticography available. Faculty appointment, teaching. Affiliated Baylor Institute of Medicine, Texas Medical Center. Dr. Lee D. Cady, Manager, VA Hospital, Houston, Texas.

3/16, 23, 30

Medical Writer, "Gray Flannel Suit" type, 25-35 years old with imagination, science background, and talent for concise, effective prose. Job entails contacting physicians for scientific convention displays; writing, directing medical movies. Salary dependent and demonstrable ability. Eastern manufacturer, Liberal benefit program. Send complete resume, Box 57, SCIENCE.

3/16

Patent Administrator. Pharmaceutical manufacturer requires M.S. in chemistry with minor in pharmacy, or a biological science; head of patent section in general administration of patent program. Thorough knowledge of chemical nomenclature and reactions, report writing, and analysis of data. Two or three years' patenting experience. Send complete resume, Eastern manufacturer. Send complete resume. Box 53, SCIENCE.

3/23, 30; 4/6

**Books and Magazines**

**Persons wanted**

Anatomist, woman, Ph.D., 30 years old, desires academic position. Box 53, SCIENCE.

Bacteriologist-Biochemist, Ph.D. Several years' research experience in metabolism, genetics. Presently on faculty of leading medical school. Desires research position or teaching position. Box 51, SCIENCE.

Pharmacist; late 40's; Ph.D.; chemistry. 13 years' teaching experience, pharmacology and physiology, well-known medical schools; 2 years' clinical biochemistry; Far West preferred; $8000, Woodward Medical Bureau, 185 North Wabash, Chicago.

Physiologist, Ph.D.; 5 years' university teaching; available for research position with pharmaceutical firm or research institution. Medical Bureau (Burneise Larson, Director), Palmolive Building, Chicago.

Plant Physiologist; 10 years' research experience and development in floriculture. Desires research position. Box 54, SCIENCE.

Zoologist; Ph.D., 1956; research interests in genetics, cancer; publications. Desires teaching position with research opportunities. Box 59, SCIENCE.

HOLTZMAN RAT COMPANY

Two factors contribute to the success of our rats in tumor research: first, the insignificant levels of spontaneous tumor incidence and second, the low percent of tumor implant regression. The latter especially applies to the Flexner-Jobling and Walker 256 Carcinomas and R-8, R-39 and Jensen Sarcomas.

COMPOSITION OF SCIENTIFIC WORDS
ROLAND WILBUR BROWN
Geologist, U. S. Geological Survey

CONTENTS: Foreword; Abbreviations and Symbols; History and Nature of the English Language; Nature of Greek and Latin; Transliteration; Diacritical Marks; Greek and Latin Words; Formation of Scientific Terms; Adoption of Words; Composition of Words; Arbitrary Creation of Words; Gender; Spelling and Pronunciation; Cross-Reference Lexicon; Bibliography; Index.

This book is designed for all persons interested in the derivation and coinage of words, but especially for scientists who need new words for new concepts. The first 61 pages describe how words are made and the remaining 821 pages supply the materials and examples for making them. The comprehensive lexicon is a two-way arrangement of English and classical items combined in one alphabetic sequence. Thus, classical roots, listed under appropriate English key words, can be found readily by the wordmaker.

Since its publication in 1954 this book has been acclaimed in many reviews in scientific journals both here and abroad. Satisfied buyers and users have showered the author with letters of approval.

* * *

An indispensable tool for the scientist!
A fine gift for an intelligent friend!

Bound attractively and sturdily in blue cloth, stamped in gold. 6" x 9", 882 pp.

A New International Centrifuge

For the Modern Laboratory

You will want to know more about the new aerodynamic guard bowl ventilating system—
the new stainless steel interior — the stainless steel auxiliary cover that saves valuable bench space — the electric tachometer — the electric time clock — the unique air-filtering system — the spring-loaded hinge — the new vibration dampening system which results in smooth operation without the "shaker" action of over-flexible mountings — the versatility of 84 interchangeable accessory combinations.

Let us tell you more about this completely new Centrifuge, handsomely designed to fit in with your wall counters and cabinets. Write for Bulletin J explaining all these features in detail.

International Equipment Company
1284 Soldiers Field Road, Boston 35, Mass.
EXPANDER

for RUBBER TUBING

Connects rubber tubing to glass tubing without a lubricant

Rubber tubing can be stretched readily at the open end for easy access of a cylindrical object. The stretch is effected by three parallel tines whose tips are simultaneously diverged by a system of levers upon compressing the handles. The device is of chromium plated metal with plastic grips and has been approved by Safety Committee of one of the country's largest industrial laboratories.

To operate, tines are inserted into end of rubber tubing which can be spread open by squeezing the handles. The glass tubing is guided between and slightly beyond ends of the tines which are then unlocked by pulling a trigger. Tines are retracted without dislodging the glass tubing simply by repeating pressure on handles.

For use with rubber tubing from approximately 1/4-inch to 3/8-inch bore. Not intended for use with pressure or vacuum tubing with thick, rigid wall, or with plastic tubings such as Tygon or polyethylene, which are less elastic than rubber.

Overall length of 12 inches permits connection of tubing in assemblies at junctions which ordinarily might not be accessible.

8853. Rubber Tubing Expander, Elliott Safety Type, as above described. With directions for use. ................................. 14.00
10% discount in lots of 12.

More detailed information sent upon request.
