A JOSIAH MACY, JR. FOUNDATION
PUBLICATION

GROUP PROCESSES
Transactions of the Second Conference

This volume contains much of value not only to biologists and social scientists but to those interested in metaphysical aspects of communication. There is a unique and fascinating presentation of the social structure among penguins; additional new material on the neonate-mother relationship in the goat and man; a kinetic analysis of filmed behavior of children; and lively discussion on the meaning of play.

PERSONNEL PLACEMENT

PHARMACEUTICAL PRODUCT DEVELOPMENT
Excellent supervisory opportunity in rapidly expanding Pharmaceutical Product Development Laboratory. Degree in Pharmacy is desirable, also some industrial pharmaceutical development experience, preferably in antibiotics. Laboratory located 25 miles from Philadelphia. Send résumé and salary requirements to Box 212, SCIENCE.

PHARMACEUTICAL COPY

COPY for classified ads must reach SCIENCE two weeks before date of issue (Friday of every week).

DISPLAYS: Rates listed below—no charge for Box Number. Monthly invoices will be sent on a charge account basis—provided that satisfactory credit is established. Single insertion $22.00 per inch 13 times in one year $21.00 per inch 26 times in one year $20.00 per inch 52 times in one year $19.00 per inch For PROOFS on display ads, copy must reach SCIENCE four weeks before date of issue (Friday of every week).

POSITIONS OPEN

(a) Faculty Members in Comparative Anatomy, Chemistry, Biology, Pharmaceutical Chemistry, Physiology, Physics, Mathematics, and Microbiology; ranks depend upon qualifications: ample time for research. (b) Associate Medical Director: physician well trained in pediatrics, internal medicine, or surgery; advantageous if expert in narrow area; pharmaceutical company; Pacific Coast; $15,000. (c) Biochemist, Ph.D. or M.D., experienced in enzyme chemistry, qualified to direct biochemical laboratory, 600-bed hospital affiliated medical school; salary sufficient to interest outstanding candidate; East. S8-5 Medical Bureau, Palomar Building, Chicago. X

RESEARCH ASSOCIATE (Physicist)—Research on problems of radiation measurement involving use of complex electronic equipment; program emphasizes detailed study of spectrum of gamma rays from colimated sources through variety of absorbers using multichannel analyzers. Qualifications: B.S. in physics and 2 to 3 years work experience with special emphasis on nuclear instrumentation and electronics; or M.S. and some physics research.

RESEARCH ASSOCIATE (Physicist)—Responsibility for radioactive isotopes, dosage preparation and record control; operation of health-physics program; control and storage of radioactive material. Supervises chemist. Qualifications: B.S. in nuclear physics and 2 to 3 years related experience or M.S. in nuclear physics. Courses in analytical chemistry desirable.

Starting salary to $6000 depending upon qualifications. Opportunity to further education and carry on thesis research for M.S. or Ph.D. For applications write: Management Services Department, Oak Ridge Institute of Nuclear Studies, P.O. Box 117, Oak Ridge, Tennessee.

Research Microbiologist. Minimum of 6 years required in either an industrial and laboratory capacity. A good background in immunology and biochemistry required. Ph.D. preferred, but will consider M.S. Salary open. Inquire of Dr. Earl B. Gerheim, Sherman Laboratories, 1031 Grandy, Detroit 11, Michigan. 8/10, 17, 24, 31

Chemist, Physical Ph.D.

ADVANCED WORK IN HIGH TEMPERATURE AND RELATED FIELDS
As part of its work on advanced missile weapons systems, the Special Defense Projects Department of GE is doing advanced work on:

- Kinetistics of the upper atmosphere
- Radiation and collision processes
- Emission and absorption characteristics of gases
- High temperature radiation
- Gas composition at high temperature
- Molecular characteristics of vaporized materials
- Transport properties of dilute gases at high temperature
- Equilibrium properties of gases
- Surface kinetics
- Gas kinetics at high temperature
- Hypersonic inviscid flow

If you have several years experience in the field and are interested in work in these areas, write in confidence to:

MR. W. BILLINGSLEY
SPECIAL DEFENSE PROJECTS DEPARTMENT

GENERAL ELECTRIC

3198 Chestnut Street, Room 100-A
Philadelphia 4, Pa.

Positions

Chemist, Research Assistant, male or female; biochemical experience, $4000. Box 208, SCIENCE. 8/31

Scientific Writer. Young M.D. or person with equivalent training in medical science with literary interest and talent to write technical material for the medical profession. Work involves interpretation of laboratory and clinical experiences, and also writing explaining composition, application, use, therapeutic action of new drug decs for P.D.A., scientific publications and practicing physicians. Large midwestern pharmaceutical research and manufacturing organization. Please and complete résumé to Box 213, SCIENCE. 9/7, 14, 21

Positions Wanted

Bacteriologist-Lawyer: M.S., LL.B. (September); 8 years' experience in production and development administration in pharmaceutical and allied industry in United States and Latin America. Biochemistry minor. Sigma Xi. Fluent Spanish. Age 22. Foreign assignment considered. Box 211, SCIENCE.

Certified Clinical Chemist; Ph.D.; 8 years, chief, university chemistry department; 5 years, chief, chemistry, 600-bed hospital. Medical Bureau, Palomar Building, Chicago. X

Microbiologist, Ph.D. Competent investigator in medical bacteriology, mycology. Research experience with phages and animal viruses. Chemistry background. Publications. Desires position in research, teaching, or industry. Box 215, SCIENCE. 9/7

Nurse, Ed.D.; 13 years' experience nursing service and education. Desires deanship or directorship of university school of nursing, or prefers new or developing program. Box 193, SCIENCE.

Virologist, M.S. Tissue culture, academic and industrial research experience. Publications. Desires academic or industrial position. Box 209, SCIENCE. 8/31

HOLTZMAN COMPANY

The exceptional docility of our rats is evidenced first in the ease in which they can be handled. Most important though is the group uniformity of this characteristic. Thus, because of their docility, our rats can often be used to better advantage in research in which growth or internal organic changes are factors under observation.

24 AUGUST 1956
GET YOUR ADVANCE COPY

of the General Program-Directory
of the AAAS New York Meeting
by first class mail – early in December

The General Program-Directory of the 123rd Meeting of the AAAS in New York City, Dec. 26–31, 1956, will be available to anyone, at cost, within the first week in December—whether he can attend the Meeting or not. You will want the General Program-Directory for your reference shelf.

Program content
1. The two-session general symposium, "Moving Frontiers of Science," arranged by the Committee on AAAS Meetings.
2. The six sessions of the Conference on Scientific and Technical Editorial Problems.
3. Details of the anniversary celebrations of the AAAS-Gordon Research Conferences, Botanical Society of America, Freud et al.
4. Programs of the 18 AAAS sections (symposia and contributed papers).
5. Programs of the more than 80 participating societies.
6. The Special Sessions: AAAS, Academy Conference, Conference on Scientific Manpower, National Geographic Society, Phi Beta Kappa, RESA, Sigma Xi.
7. Details of the Hotel Statler—center of the Meeting—and other hotels and session sites.
8. Titles of the latest foreign and domestic scientific films to be shown in the AAAS Science Theatre.

Directory content
1. AAAS officers, staff, committees for 1956.
2. Complete roll of AAAS presidents and their fields.
3. The more than 265 affiliated organizations.
4. Historical sketch and organization of the Association; the 1955 revised Constitution and Bylaws.
6. AAAS Awards and Grants—including all past winners.
7. Membership figures by sections.
8. Section committees (Council members) in detail.
9. Local committees.
10. Future Meetings of the AAAS through 1962.
11. New and current activities of the AAAS.

Advance Registration

Advance registration has these decided advantages: 1) You avoid delay at the Registration Center upon arrival; 2) You receive the General Program-Directory in ample time to decide, unhurriedly, which events and sessions you particularly wish to attend; 3) Your name is posted in the Visible Directory as the Meeting opens.

The following coupon may be used both by advance registrants and by those who wish only the advance copy of the General Program-Directory.

--- THIS IS YOUR COUPON FOR AN ADVANCE COPY OF THE GENERAL PROGRAM-DIRECTORY ---

1a. □ Enclosed is $3.00 for my advance Registration Fee which brings me the Program-Directory, Convention Badge, and all privileges of the Meeting.
1b. □ Enclosed is $2.00 for only the Program-Directory. (It is understood that, if I should attend the Meeting later, the Badge—which is necessary for all privileges of the Meeting—will be secured for $1.00 more.)

KLETT ELECTROPHORESIS

CUSTOM MADE

TOOL FOR THE ANALYSIS OF COMPLEX COLLOID SYSTEMS, AND FOR THE CONTROL OF PRODUCTION OF PURIFIED PROTEINS, ENZYMES, HORMONES

KLETT MANUFACTURING CO.
179 EAST 87TH STREET
NEW YORK, N. Y.
A RESEARCH TOOL for the centrifugal purification and molecular-weight determination of such macromolecules as proteins, viruses, polymers, enzymes, hormones, and chemical precipitates; the Spinco Model E Ultracentrifuge combines all operations in a single cabinet.

OPERATING FEATURES include a 70,000-rpm quiet electric drive designed for years of service and arranged for easy removal and exchange; a selection of analytical and preparative rotors which are interchangeable and provide forces up to 260,000 times gravity operating in a heavily-armored vacuum rotor chamber; an optical system of the Philpott-Svensson refractive-index type with viewing screen, automatic camera, and high-intensity light source for analytical work; a refrigerating system for keeping rotors at controlled temperatures; and vacuum pumps which provide atmospheres down to $10^{-4}$ mm of mercury.

CONTROLS AND INSTRUMENTS are included to maintain average drive-speed accuracy automatically within 0.1 per cent of setting; to set operation of automatic camera both for exposure and photo-interval; to read rotor temperatures; to select one of three graded braking rates; to read motor voltage and current; to read vacuum; and to actuate the camera manually. Interlocks are provided to insure safe operation by individuals without extensive training.

Send for complete details.
