4030. TRIPLE-BEAM BALANCE, High Form. This balance is recommended for weighing chemicals, measuring specific gravity, and for general laboratory use wherever high sensitivity is required.

The gradual deterioration of the knife-edges and bearings experienced in other balances has been sharply reduced by making the knife-edges of Cobalite, a very hard, non-rusting metal which retains its original true edge for an exceptionally long time. The grooved agate bearings are designed and protected in such a way that they are rarely damaged. Yet they are readily accessible for occasional cleaning.

Crystal Ball

A SCIENTIFIC
SAMPLER
by RAYMOND STEVENS,
HOWARD F. HAMACHER
and ALAN A. SMITH

Here is a fascinating book—a collection of reports, predictions and reflections from "The Industrial Bulletin," the challenging magazine of Arthur D. Little, Inc., prominent industrial research organization. The Bulletin's short and highly readable essays, dealing with everything from smog to space travel, are models of technical reporting—urbane, exact, imaginative. Some record accomplished milestones in research and engineering; some herald developments yet to come. Each article in this collection is dated, to show the chronology of science, and footnotes bring the statistics up to date.

MODERN SCIENCE and HUMAN VALUES
by EVERETT W. HALL

The dilemma of the atomic age is the discrepant pace of scientific achievement and man's knowledge of himself. This book is a brilliant survey of the unequal race between ethical and scientific progress—the present situation and the currents of history that have led up to it. In these wise and persuasive pages, Dr. Hall shows you the frightening dimensions of the problems that we or our children must one day resolve or perish.

PERSONNEL PLACEMENT

POSITIONS OPEN

INFRARED SPECTROSCOPIST
Opening for a responsible individual with several years' industrial experience in infrared spectroscopy to head up an infrared group. Infrared activities are being carried out in a well-equipped, newly established laboratory as part of a cooperative effort to solve a wide variety of physical, chemical and metallurgical problems. Submit resume and salary requirements to:
GOODYEAR ATOMIC CORPORATION
Employment Department S
P.O. Box 628
Portsmouth, Ohio

X-RAY DIFFRACTION AND FLUORESCENCE
Opening for a responsible individual to take charge of new, well-equipped x-ray laboratory in Midwest. Experience and interest required in metallography, corrosion, general diffraction problems and fluorescence applications. Submit resume to:
GOODYEAR ATOMIC CORPORATION
Employment Department R
P.O. Box 628
Portsmouth, Ohio

POSIZIONS OPEN
Biochemistry Assistant, B.S. or M.S., experience in steroid analyses, to assist in laboratory training program affiliated with eastern university. Opportunity for research. Liberal salary depending upon experience. Send resume. Box 230, SCIENCE.

(a) Medical Director; recently created department, one of leading pharmaceutical companies; variety of administrative duties, including directing clinical research. (b) Physiologist, preferably Ph.D., with clinical training in illumination, color, physiology and psychology of vision, qualified as group leader for research on surgical lighting; unusual opportunity; $10,000-$12,000; East. (c) Immunochemist, preferably Ph.D., or biochemist trained in immunology; allergy laboratory with well-equipped research department; large city, medical center, East; opportunity faculty post. (d) Chemist to direct laboratory research institution affiliated with medical school; extensive research in cancer; East. 99-28 Medical Bureau, (Burnett Larson, Director), 900 North Michigan Avenue, Chicago.

POSITIONS WANTED
Active Research Chemist available in November. Experienced in cracking tough basic problems with or without help. Sold industrial and university work background. Organic-inorganic instrumentation. Salary $8500. Box 228, SCIENCE.

Biochemist; Ph.D.; 12 years' experience, pharmaceutical industry, 4 years, group leader; 8 years, director, research, Medical Bureau (Burnett Larson, Director), 900 North Michigan Avenue, Chicago. X

Biochemist, Ph.D., clinical chemist, 3 years; teaching and research experience, Desire New York City area. Box 227, SCIENCE. X

Senior Physiologist, Ph.D.; 7 years, medical faculty; 12 years, research and administration, applied physiology. Desires professorship or senior research position. Now employed. Box 229, SCIENCE. X

Virologist, Ph.D. Creative competent investigator. Research background with phages and animal viruses. Desires responsible position in research. Industrial or academic. Box 226, SCIENCE. 10/5

SCIENTIFIC INFORMATION HEAD
Key position available with prominent pharmaceutical manufacturer in Philadelphia area. Duties involve heading up central unit including library, abstracting, technical editing, technical filing groups serving research, medical and related departments. Requires fully trained scientist with laboratory background in medical field. Library or writing experience helpful but not essential. Ideal working conditions. High level position. Box 231, SCIENCE.

SCIENCE, VOL. 124
APPLICATION FOR HOTEL RESERVATIONS
123rd AAAS MEETING
New York City, December 26-31, 1956

The list of hotels and their rates and the reservation coupon below are for your convenience in making your hotel room reservation in New York. Please send your application, not to any hotel directly, but to the AAAS Housing Bureau in New York and thereby avoid delay and confusion. (Members of the American Astronomical Society who wish reservations at uptown hotels should correspond directly with the Hayden Planetarium.) The experienced Housing Bureau will make assignments promptly; a confirmation will be sent you in two weeks or less. As in any city, single-bedded rooms may become scarce; double rooms for single occupancy cost more; for a lower rate, share a twin-bedded room with a colleague. Most hotels will place comfortable rollaway beds in rooms or suites at 2.50 or 3.00 per night. Mail your application now to secure your first choice of desired accommodations. All requests for reservations must give a definite date and estimated hour of arrival, and also probable date of departure.

ROTARY WATER BATH SHAKER

- Variable speed range 85 to 285 osc. per min.
- Temperature range 30°C to 100°C ± .5°C
- Available for shaking various size flasks.

A shaking apparatus that is extremely useful for cultivating microorganisms under conditions of aeration and with more precise temperature control than is possible in an incubator. It is particularly valuable in obtaining bacterial growth curves.

GLASS ABSORPTION CELLS made by KLETT

New Nitralyzer

- High Accuracy — Within 0.2%
- Extremely Rapid Response
- Completely Portable

This compact unit offers continuous, rapid, accurate analyses of gaseous nitrogen without the use of absorbent chemicals, sample containers or complex glass systems. The sampling head is separately contained to permit use as a remote probe. This feature makes the Nitralyzer especially well-adapted for use in pulmonary function studies.

Designed to allow complete portability, this entire unit, complete with vacuum pump, vacuum gauge and photocell in a remote unit, fits easily on the smallest laboratory cart. Gaseous nitrogen analyses may therefore be made at any point at which 110 volt A.C. power is available. This instrument has six built-in ranges: 0-100%, 0-20%, 20-60%, 60-100%, 10-30% and 30-50% and special concentration ranges are available. Once the instrument has been zeroed and the gain set for a standard gas, any of the other ranges may be used at any time by simply changing the range selector switch. This feature allows the accurate and rapid monitoring of even the most radical fluctuations in concentration.

For those desiring a documentary record of analyses, the Nitralyzer is provided with suitable provisions for the accommodation of a recording attachment.

#42240 Nitralyzer (CEDCO) is shipped complete with vacuum pump, vacuum gauge, ionization chamber and photocell in separate remote unit, rubber tubing and connectors. Each ...........................................$1,425.00

For information request Bulletin #20-104.
