SCIENCE ON MICROCARDS

The International Geophysical Year has greatly increased the use of Microcards for scientific material. It is, therefore, not surprising that we have had to reprint SCIENCE on Microcards for the years from 1953 on.

The first half of 1958, volume 127 of SCIENCE, is now also available in this form. The space saving is substantial: 35 sets of cards occupy the space of one set of SCIENCE.

The price has remained unchanged, $7.50 per volume.
