Editorial
Hazards of the '60's ................................................................. 1285

Articles
The Atmosphere in Motion: R. R. Long ........................................ 1287
Research in geophysical fluid mechanics shows how density variation and rotation affect air motions.

The Competitive Exclusion Principle: G. Hardin ............................. 1292
An idea that took a century to be born has implications in ecology, economics, and genetics.

Science in the News
Atom Test Ban Hearings; Mr. Kefauver and the Drug Industry; Selecting Fulbright Scholars; AAAS Socio-Psychological Prize .................. 1298

Book Reviews
Bikini and Nearby Atolls, reviewed by W. C. Putnam; other reviews .......... 1305

Reports
The Need for Better Macromolecular Models: J. R. Platt ..................... 1309
Blood Types in Fur Seals: K. Fujino and J. E. Cushing ....................... 1310
Gene Flow and Divergence under Disruptive Selection:
   E. Millicent and J. M. Thoday .................................................. 1311
Enzymatic O-Methylation of N-Acetylserotonin to Melatonin:
   J. Axelrod and H. Weissbach .................................................... 1312
Amber with Insect and Plant Inclusions from the Dominican Republic:
   M. W. Sanderson and T. H. Farr ............................................... 1313
Opponent Color Responses in Retinal Ganglion Cells: H. G. Wagner,
   E. F. MacNichol, Jr., M. L. Wolbarsht ........................................ 1314
Chlorophyll-Sensitized Photoreduction in the Thionine-Ferrous System:
   S. Ichinura and E. Rabinowitch ................................................. 1314
National Academy of Sciences: Abstracts of papers presented at the annual meeting ...................................................... 1316

Departments
Letters from A. Pauly; C. O. Ball; P. Bohannan ............................... 1282
Macromolecular Complexes; Forthcoming Events; New Products ............ 1323

Cover
Flow of a salt-water mixture over an obstacle. See page 1287.
