Editorial

Popularization of Science .......................................................... 1491

Articles

Earthquake Mechanisms: P. Byerly ............................................. 1493
Seismograms give clues to possible mechanisms that convert potential
into kinetic energy at the source.

Population and World Economic Development: J. J. Spengler .......... 1497
In a finite world, population growth, before it is finally halted,
entails diverse costs.

Biologic Synthesis of Deoxyribonucleic Acid: A. Kornberg .......... 1503
An isolated enzyme catalyzes synthesis of this nucleic acid in response
to directions from pre-existing DNA.

Science in the News

Scientists in Government: Growing Concern over Conflicts of Interest; United
States and Russia Begin Exchange Visits of Nuclear Scientists .......... 1508

Book Reviews

Evolution after Darwin, reviewed by C. Zirkle; other reviews ........... 1519

Reports

Use of Chemicals To Control Shellfish Predators:
V. L. Loosanoff, C. L. MacKenzie, Jr., L. W. Shearer .................. 1522

Sulfur Dioxide Sensitized Photochemical Oxidation of Hydrocarbons:
H. S. Johnston and K. dev Jain .............................................. 1523

Connection between Archaeopteris and Callixylon: C. B. Beck ..... 1524

Numerical Comparison of Geomorphic Samples: W. F. Tanner .... 1525

Role of Olfactory Sense in Pregnancy Block by Strange Males:
H. M. Bruce and D. M. V. Parrott ........................................... 1526

Selection of Food by Size in the Chimpanzee, and Comparison with Human
Judgments: E. W. Menzel, Jr. ............................................... 1527

Synchronous Division in Chlamydomonas moewusii: E. Bernstein ... 1528

Subfractionation of Human Serum Enzymes: C. A. Dubbs, C. Vivonia, J. M. Hilburn 1529

Distortion of the Pyramid of Numbers in a Grassland Insect Community:
F. C. Evans and U. N. Lanham .............................................. 1531

Uptake of Glucose from Solution by the Solitary Coral, Fungia:
G. C. Stephens ................................................................. 1532

Applicability of Hodgkin-Huxley Model to Experimental Data from the Giant
Axon of Lobster: J. C. Dalton and R. FitzHugh .......................... 1533

Prehistoric Copper Objects from Western Mexico: C. W. Meighan .... 1534

Departments

Near Eastern Prehistory; Forthcoming Events; New Products .......... 1536

Letters from R. G. Barker; J. W. Winchester; A. Wittenberg and S. E. Ross;
W. Ley and K. E. Boulding; C. C. Lindegren ............................ 1560

Cover

Faulting in Nevada in 1954 (Fairview Peak earthquake). [Karl Steinbrugge]
