Meanwhile, Down in the Valley

The Effect of Dream Deprivation: W. Dement

The need for a certain amount of dreaming each night is suggested by recent experiments.

Tiros Reveals Cloud Formations: H. Wexler and S. Fritz

The data indicate that short-lived fission products make a major contribution to radiation dose rates.

Knowledge: a Growth Process: P. Weiss

Knowledge grows like organisms, with data serving as food to be assimilated, rather than merely stored.

Hessel de Vries, Physicist and Biophysicist: H. de Waard

Knowledge Standard: Testimony at Congressional Hearings Tends To Be Reassuring

Finite Radiocarbon Dates of the Port Talbot Interstadial Deposits in Southern Ontario: H. de Vries and A. Dreimanis

Pacific Division, AAAS; Forthcoming Events; New Products

Thiocarbamide crystal. Dark-field illumination (×575). A drop of solution is kept under observation until a suitable arrangement appears. The solvent determines the pattern produced during crystallization. Rapid crystallization produces a coarse pattern, slow crystallization a fine one. [L. C. Massopust, Marquette University School of Medicine]
