Editorial
Humane Treatment of Animals ............................................ 7

Articles
Nuclear Properties of Antinucleons: E. Segre .......................... 9
The study of antiprotons reveals other antiparticles previously predicted and also unpredictable aspects of the scattering and annihilation process.

General Theory of Mortality and Aging: B. L. Strehler and A. S. Mildvan 14
A stochastic model relates observations on aging, physiologic decline, mortality, and radiation.

Science in the News
Funds for Science Foundation and Space Agency; Pauling vs. the Senate Internal Security Committee; Un-American Science .................................... 23

Book Reviews
T. C. Schelling’s The Strategy of Conflict, reviewed by P. Kecskemeti; other reviews ........................................................ 28

Reports
Suppression of Pain by Sound: W. J. Gardner, J. C. R. Licklider, A. Z. Weisz ................................. 32

Arizona’s Oldest Cornfield: P. S. Martin and J. Schoenwetter .................. 33

Environmental Factors Influencing Progeny Yields in Drosophila: W. C. Levengood and M. P. Shinkle ............ 34

Observations on the Behavior of the Porpoise Delphinus delphis: R. L. Edwards and R. Livingstone, Jr. ............... 35

Osmotic Pressure and Aqueous Humor Formation in Dogfish: R. F. Doolittle, C. Thomas, W. Stone, Jr. ............ 36

Control of Vocal Responding in Chickens: H. Lane .............................. 37

Possible Two-Stage Mechanism in Experimental Leukemogenesis: I. Berenblum and N. Trainin ............................................ 40

Influence of Anabolic Steroids on Uptake of Alpha-Aminoisobutyric Acid by Levator Ani Muscle: W. Metcalf and E. Gross ...................................... 41

Effects of Ethyl Alcohol on Avoidance Behavior: G. S. Reynolds and P. van Sommers ................................. 42

Reversible Inhibition of Beef Heart Cytochrome c Oxidase by Polyionic Macromolecules: P. Person and A. Fine ............................................ 43

Trophic Substances in a Blind Cave Crayfish: M. Fingerman and W. C. Mobberly, Jr. ...................................... 44

Departments
Letters from R. E. Lapp; S. Rubin; B. Baldwin and M. Walton; G. A. Vance .................. 46

Southwestern and Rocky Mountain Division; Forthcoming Events .................. 48

Cover
An antiproton enters a propane bubble chamber. See page 9. [From Agnew et al., Phy. Rev. 110, 994 (1958)]
