Letters from *H. F. Gallup and C. Reid; H. C. Dudley; F. W. Went; J. L. Swauger* .... 378

Congress of Anatomists; Forthcoming Events; New Products .......................... 426

**Cover**

Shell of a pectinid bivalve through which a gastropod has drilled a hole 3 millimeters in diameter. The shell was collected by the Danish *Galatea* Expedition 1950–52 in the Australian Bight at a depth of 440 meters, and was made available by the Zoological Museum, Copenhagen. The photograph was made by S. M. Boone and M. R. Carriker. [M. R. Carriker, University of North Carolina]
