

Editorial	Difficult Decisions	1089
Articles	New Developments in Hail Research: <i>R. List</i>	1091
	Artificial production of hailstones leads to advances in the understanding of their natural formation.	
	Searching Natural Language Text by Computer: <i>D. R. Swanson</i>	1099
	Machine indexing and text searching offer an approach to the basic problems of library automation.	
	Modern Blasting Agents: <i>M. A. Cook</i>	1105
	Because they are safer, cheaper, and nontoxic, they are replacing dynamites in some operations.	
	A Computer Program for Classifying Plants: <i>D. J. Rogers</i> and <i>T. T. Tanimoto</i>	1115
	The computer is programmed to simulate the taxonomic process of comparing each case with every other case.	
	Photoelectric Photometry in Astronomical Studies: <i>F. B. Wood</i>	1123
	Advances have been made in various fields of astronomy through the use of photoelectric techniques.	
	Integration of Circuit Functions into Solids: <i>S. W. Herwald</i> and <i>S. J. Angello</i>	1127
	The trend in electronic circuit construction is toward microminiaturization and molecular electronics.	
	Photographic Tracking of Elementary Particles: <i>C. F. Powell</i>	1134
	Sheets of emulsion can be stacked so that the tracks of particles can be recorded in three dimensions.	
Science in the News	Disarmament: American Position Is Awkward	1137
Book Reviews	<i>Advances in Computers, Mathematical Methods for Digital Computers, Progress in Automation, Automatic Data-Processing Systems, Management Organization and the Computer</i> , reviewed by <i>P. Rabinowitz</i> ; other reviews	1143
Departments	Forthcoming Events; New Products	1146
	Directory of Advertised Products	1157
Cover	Thin section of hailstone with polarized light. See page 1091.
