Editorial
Two Weeks B.C. .......................................................... 1615

Articles
Archeology and Geology in Ancient Egypt: K. W. Butzer
Geomorphological analysis permits reconstruction of the geography of prehistoric settlement.

Fashion in Cell Biology: H. B. Fell
The motives that prompt us to follow fashions in research are various and not always estimable.

AAAS New York Meeting: R. L. Taylor
New York meeting information; Annual Exposition of Science and Industry; concluding section and society programs.

Science in the News
Science Advisory Committee and National Goals Reports Emphasize Growing Roles of Government .......................................................... 1648

Book Reviews
B. Rensch's Evolution above the Species Level, reviewed by B. Schaeffer; other reviews .......................................................... 1653

Reports
Calorimetry Group Adopts Revised Resolution on Data Publication:
J. P. McCullough, E. F. Westrum, Jr., W. H. Evans .......................................................... 1658

Action of 1-Benzyl-2-methyl-5-methoxytryptamine on Momoamine Oxidase:
E. A. Zeller; A. Feldstein, H. Hoagland, H. Freeman .......................................................... 1659

Virus Isolated from Inclusion Conjunctivitis of Newborn (Inclusion Blennorrhoea):
L. Hanna et al. .......................................................... 1660

Performance Record of Parthenogenetic Turkey Male: M. W. Olsen .......................................................... 1661

Thermodynamic Treatment of Radio-Tracer Movements across Biological Membranes:
I. Tasaki .......................................................... 1661

Light and Electron Microscope Study of Cell Walls of Brown and Red Algae:
C. J. Dawes, F. M. Scott, E. Bowler .......................................................... 1663

Effect of Synthetic Polysylane on Fungi: D. J. Buchanan-Davidson et al. .......................................................... 1664

Natural Lead-210 Content of Man: J. B. Hursh .......................................................... 1666

Previous Breeding Experience and Hormone-Induced Incubation Behavior in the Ring Dove: D. S. Lehrman and R. P. Wortis .......................................................... 1667

Brightness Scaling of White and Colored Stimuli: J. W. Onley .......................................................... 1668

Sexual Recombination in a Homothallic, Antibiotic Producing Fungus:
A. A. Fantini and L. S. Olive .......................................................... 1670

Isolation of trans-Aconitic Acid from the Moss Mnium affinis:
S. Tachibana and B. J. D. Meeuse .......................................................... 1671

Departments

McCullum-Pratt Symposium; Physicomathematical Aspects of Biology;
Forthcoming Events; New Products .......................................................... 1698

Cover
Cell wall of a brown alga, Dictyota flabellata. Two large pits are flanked by microfibrils with a dominantly parallel orientation and are separated by an area in which the fibrils retain the reticulate pattern. Electron microscope, about x 26,500. See page 1663. [Edwin Bowler, University of California, Los Angeles]
