How Helpful Is Freedom? .................................................. 1393

Articles
Information Theory: H. H. Goldstine ........................................... 1395
A brief survey is made of the recent developments and the current status of information theory.

Chromosome Cytology and Evolution in Primates: E. H. Y. Chu and M. A Bender .... 1399
Study of chromosomes adds to our knowledge of evolutionary relationships among primates.

Human Behavior during the Tsunami of May 1960:
R. Lachman, M. Tatsuoka, W. J. Bonk ........................................ 1405
Research on the Hawaiian disaster explores the consequences of an ambiguous warning system.

Science in the News
Science in the Courts: The Supreme Court Is Asked To Decide on the Inherent Dangers of Nuclear Reactors ........................................... 1410

Book Reviews
The Atom Within Us and The Coil of Life, reviewed by G. Hardin; other reviews .... 1414

Afferent Units in Dorsal Roots of Cat Driven by Respiration:
A. A. Siebens and F. Puletti .................................................. 1418

Density of the Lunar Atmosphere: E. J. Ópik and S. F. Singer ....................... 1419

Rare Tumor in Coast Redwood, Sequoia sempervirens: C. F. Emanuel .......... 1420

Alternation as Function of Preliminary Training and Type of Deprivation:
S. Hellyer and J. H. Straughan .............................................. 1422

Electron Microscopy and Autoradiography: L. A. George II ....................... 1423

Phototropic Inversion in Phycomyces: E. S. Castle .................................. 1424

Nitrogen Deficiency and Fluoride Susceptibility of Bean Seedlings:
D. F. Adams and C. W. Sulzbach ........................................... 1425

Spinal Reflexes and Seizure Patterns in the Two-Toed Sloth:
D. W. Esplin and D. M. Woodbury ....................................... 1426

Haptoglobin Types in Poland: K. Murawski and T. Miszczak ....................... 1427

Recovery from Electroconvulsive Shock as a Function of Infantile Stimulation:
R. W. Bell, G. Reisner, T. Linn ............................................ 1428

Association Affairs
The Third Denver Meeting: Some Background .................................... 1429

Departments
Forthcoming Events; New Products ........................................... 1432

Cover
Radioactive and nonradioactive particles collected on a membrane filter used in sampling air for radioelements. The many alpha tracks observed as reduced silver grains emanating from the plutonium dioxide particles distinguished them from nonradioactive material. See page 1423 (electron microscope, × 8400). [L. A. George II, Hanford Laboratories, General Electric Co.]
