Cover	Silver drinking bowl of Phoenician design found in the tomb of a 7th-century B.C. Etruscan prince. In the outer frieze the prince is seen leaving the palace gates in a chariot, hunting deer, picnicking at midday, being attacked by hairy giants, and being rescued by Astarte, patroness of chariots. Afterward, he returns home. From <i>Dawn of Civilization</i> , reviewed on page 723. [McGraw-Hill, New York, 1961]
