Forthcoming Events ............................................................ 1765

Cover

Luminescence at micro concentrations of the enzyme-substrate system ("luciferase-luciferin" system) of the ostracod crustacean Cypridina (0.14 μM luciferin and 1.2 μM luciferase in the flask). In the foreground, specimens are luminescing after storage for 2 months with Dry Ice. See page 1755. [F. H. Johnson, Princeton University]
