Means and Ends ................................................................. 1725

Articles

Senescence in Plant Development: A. C. Leopold .................. 1727

The death of plants or plant parts may be of positive ecological or
physiological value.

Cryogenics and Nuclear Physics: R. P. Hudson ................. 1733

Solid-state and nuclear physics advance together through research
at ultralow temperatures.

The International Geophysical Month: R. A. Helliwell and L. H. Martin .... 1737

Short periods of cooperative study can consolidate the gains of the
International Geophysical Year.

Science and the News

Congress Looks at Scientific Consultants; A Successor for Mr. Rayburn;
Reprieve for WNTA ............................................................... 1739

Forthcoming Events ............................................................. 1765

Cover

Luminescence at micro concentrations of the enzyme-substrate system ("luciferase-
luciferin" system) of the ostracod crustacean Cypridina (0.14 μM luciferin and 1.2
μM luciferase in the flask). In the foreground, specimens are luminescing after storage
for 2 months with Dry Ice. See page 1755. [F. H. Johnson, Princeton University]
