Editorial  Whose Responsibility? .......................................................... 7

Articles  The Nature of Mathematics: M. Rees .................................. 9
Both constructive intuition and the study of abstract structures characterize
the growth of mathematics.

Water Waves and Hydrons: J. L. Synge ................................. 13
The term "hydron" is proposed for fictitious particles that travel with the
group velocity of waves.

De-Stalinization in Soviet Physiology: I. D. London ...................... 16
The rehabilitation of L. A. Orbeli provides an example of historical
unwriting in Soviet science.

News and Comment  Nuclear Club: France Will Soon Qualify for Membership  .......................................................... 18

Book Reviews  The Tyranny of the Clock: The Need To Enjoy What One Does Cannot Be
Overestimated: R. M. MacIver ........................................ 23
W. S. Hillman's The Physiology of Flowering, reviewed by H. E. Clark; other reviews 24

Reports  Hormonal and Nervous Control of Tanning in the Fly: G. Fraenkel and C. Hsiao .............. 27

Discrimination and Generalization on a Dimension of Stimulus Difference:
W. K. Honig and R. W. Day ............................................ 29

New Genetically Determined Molecular Form of Erythrocyte Esterase in Man:
C. R. Shaw, F. N. Syner, R. E. Tashian ................................ 31

Detection of Antibodies in Blood Meals of Hematophagous Diptera: M. P. Cunningham et al. 32

Nictitating Membrane: Classical Conditioning and Extinction in the Albino Rabbit:
I. Gornezano et al. ......................................................... 33

Chemical Stratification in Lake Fryxell, Victoria Land, Antarctica:
E. E. Angino, K. B. Armitage, J. C. Tash ................................ 34

Unique Incompatibility System in a Hybrid Species: S. G. Smith and Y. Takenouchi ............. 36

Absence of Dental Caries in a Nigerian Bush Village: F. L. Tabrah .............................................. 38

Bone Density Measurements in vivo: D. E. Williams and R. L. Mason ................................. 39

Heart Autotransplantation: Effect on Myocardial Catecholamine and Histamine:
T. Cooper et al. .............................................................. 40

Uptake of Strontium-85 by Alfalfa: C. C. Lee .................................... 41

Serial Propagation of Influenza B (Lee) Virus in a Transmissible Line of Canine Kidney
Cells: I. J. Green .................................................................. 42

Adjustment of Monkeys to Five Continuous Days of Work: R. Byck and E. Hearst ............ 43

Electroencephalogram in the Permanently Isolated Forebrain of the Cat: J. Villablanca ....... 44

Biosynthesis of Infectious Tobacco Mosaic Virus Ribonucleic Acid in a Cell-Free
Medium: G. W. Cochran et al. ........................................... 46

Tritium and Helium-3 in Solar Flares and Loss of Helium from the Earth's Atmosphere:
E. Flamm et al. ................................................................. 48

Moving Earth and Rock with a Nuclear Device: J. S. Kelly ................................. 50

Transfer of the "Sex-Ratio" Factor in Drosophila willistoni by Ingestion:
G. G. Carvalho and M. P. da Cruz .................................... 51

Direct and Transcallosal Induction of Touch Memories in the Monkey:
F. F. Ebner and R. E. Myers .............................................. 51

Departments  Meetings: Artificial Radiation Belt Discussed in Symposium at Goddard Space Center;
Forthcoming Events ............................................................ 53

New Products .................................................................... 59

Cover  The artificial radiation belt created by the high-altitude nuclear explosion of 9 July.
The numbers represent the electron flux per square centimeter per second. For a
report on the symposium at which the results of the tests were discussed, see page 53.
