**Editorial**  Whose Responsibility? ................................................................. 7

**Articles**  The Nature of Mathematics: M. Rees  .................................................. 9

Both constructive intuition and the study of abstract structures characterize the growth of mathematics.

Water Waves and Hydrons: J. L. Synge  .............................................................. 13

The term “hydron” is proposed for fictitious particles that travel with the group velocity of waves.

De-Stalinization in Soviet Physiology: I. D. London ........................................... 16

The rehabilitation of L. A. Orbeli provides an example of historical unwriting in Soviet science.

**News and Comment**  Nuclear Club: France Will Soon Qualify for Membership .......... 18

**Book Reviews**  The Tyranny of the Clock: The Need To Enjoy What One Does Cannot Be Overestimated: R. M. Muclver ................................................................. 23

W. S. Hillman’s The Physiology of Flowering, reviewed by H. E. Clark; other reviews 24

**Reports**  Hormonal and Nervous Control of Tanning in the Fly: G. Fraenkel and C. Hsiao 27

Discrimination and Generalization on a Dimension of Stimulus Difference: W. K. Honig and R. W. Day ............................................................... 29

New Genetically Determined Molecular Form of Erythrocyte Esterase in Man: C. R. Shaw, F. N. Syner, R. E. Tashian ................................. 31

Detection of Antibodies in Blood Meals of Hematophagous Diptera: M. P. Cunningham et al. .......................................................... 32

Nictitating Membrane: Classical Conditioning and Extinction in the Albino Rabbit: I. Gorneziano et al. .................................................. 33

Chemical Stratification in Lake Fryxell, Victoria Land, Antarctica: E. E. Angino, K. B. Armitage, I. C. Tash ........................................... 34

Unique Incompatibility System in a Hybrid Species: S. G. Smith and Y. Takenouchi ... 36

Absence of Dental Caries in a Nigerian Bush Village: F. L. Tabrah ................................................. 38

Bone Density Measurements in vivo: D. E. Williams and R. L. Mason .................... 39

Heart Autotransplantation: Effect on Myocardial Catecholamine and Histamine: T. Cooper et al. ................................................. 40

Uptake of Strontium-85 by Alfalfa: C. C. Lee ......................................................... 41

Serial Propagation of Influenza B (Lee) Virus in a Transmissible Line of Canine Kidney Cells: I. J. Green ......................................................... 42

Adjustment of Monkeys to Five Continuous Days of Work: R. Byck and E. Hearst 43

Electroencephalogram in the Permanently Isolated Forebrain of the Cat: J. Villablanca ........................................................................... 44

Biosynthesis of Infectious Tobacco Mosaic Virus Ribonucleic Acid in a Cell-Free Medium: G. W. Cochran et al. ......................................... 46

Tritium and Helium-3 in Solar Flares and Loss of Helium from the Earth’s Atmosphere: E. Flamm et al. ......................................................... 48

Moving Earth and Rock with a Nuclear Device: J. S. Kelly .................................... 50

Transfer of the “Sex-Ratio” Factor in Drosophila willistoni by Ingestion: G. G. Carvalho and M. P. da Cruz ....................................................... 51

Direct and Transcallosal Induction of Touch Memories in the Monkey: F. F. Ebner and R. E. Myers ......................................................... 51

**Departments**  Meetings: Artificial Radiation Belt Discussed in Symposium at Goddard Space Center; Forthcoming Events .......................... 53

New Products ........................................................................................................... 59

**Cover**  The artificial radiation belt created by the high-altitude nuclear explosion of 9 July. The numbers represent the electron flux per square centimeter per second. For a report on the symposium at which the results of the tests were discussed, see page 53.
