Editorial  Whose Responsibility? .......................................................... 7

Articles  The Nature of Mathematics: M. Rees ........................................ 9
  Both constructive intuition and the study of abstract structures characterize
  the growth of mathematics.
Water Waves and Hydrons: J. L. Synge ............................................. 13
  The term "hydron" is proposed for fictitious particles that travel with the
  group velocity of waves.
De-Stalinization in Soviet Physiology: I. D. London .......................... 16
  The rehabilitation of L. A. Orbeli provides an example of historical
  unwriting in Soviet science.

News and Comment  Nuclear Club: France Will Soon Qualify for Membership .... 18

Book Reviews  The Tyranny of the Clock: The Need To Enjoy What One Does Cannot Be
  Overestimated: R. M. MacIver .................................................... 23
  W. S. Hillman's The Physiology of Flowering, reviewed by H. E. Clark; other reviews

Reports  Hormonal and Nervous Control of Tanning in the Fly: G. Fraenkel and C. Hsiao ... 27
  Discrimination and Generalization on a Dimension of Stimulus Difference:
  W. K. Honig and R. W. Day ..................................................... 29
  New Genetically Determined Molecular Form of Erythrocyte Esterase in Man:
  C. R. Shaw, F. N. Syner, R. E. Tashian ..................................... 31
  Detection of Antibodies in Blood Meals of Hematophagous Diptera: M. P. Cunningham et al.
  Nicotilating Membrane: Classical Conditioning and Extinction in the Albino Rabbit:
  I. Gornuzo et al. ........................................................................ 33
  Chemical Stratification in Lake Fryxell, Victoria Land, Antarctica:
  E. E. Angino, K. B. Armitage, J. C. Tash ..................................... 34
  Unique Incompatibility System in a Hybrid Species: S. G. Smith and Y. Takenouchi .... 36
  Absence of Dental Caries in a Nigerian Bush Village: F. L. Tabrah ................. 36
  Bone Density Measurements in vivo: D. E. Williams and R. L. Mason ................ 39
  Heart Autotransplantation: Effect on Myocardial Catecholamine and Histamine:
  T. Cooper et al. ....................................................................... 40
  Uptake of Strontium-85 by Alfalfa: C. C. Lee .................................. 41
  Serial Propagation of Influenza B (Lee) Virus in a Transmissible Line of Canine Kidney
  Cells: I. J. Green .................................................................... 42
  Adjustment of Monkeys to Five Continuous Days of Work: R. Byck and E. Hearst ... 43
  Electroencephalogram in the Permanently Isolated Forebrain of the Cat: J. Villablancas
  Biosynthesis of Infectious Tobacco Mosaic Virus Ribonucleic Acid in a Cell-Free
  Medium: G. W. Cochran et al. .................................................... 44
  Tritium and Helium-3 in Solar Flares and Loss of Helium from the Earth's Atmosphere:
  E. Flamm et al. ....................................................................... 48
  Moving Earth and Rock with a Nuclear Device: J. S. Kelly ......................... 50
  Transfer of the "Sex-Ratio" Factor in Drosophila willistoni by Ingestion:
  G. G. Carvalho and M. P. da Cruz ............................................... 51
  Direct and Transcvallosal Induction of Touch Memories in the Monkey:
  F. F. Ebner and R. E. Myers ..................................................... 51

Departments  Meetings: Artificial Radiation Belt Discussed in Symposium at Goddard Space Center;
  Forthcoming Events ................................................................... 53

New Products ................................................................................... 59

Cover  The artificial radiation belt created by the high-altitude nuclear explosion of 9 July.
The numbers represent the electron flux per square centimeter per second. For a
report on the symposium at which the results of the tests were discussed, see page 53.
