Articles
The Nature of Mathematics: M. Rees ........................................... 9
Both constructive intuition and the study of abstract structures characterize
the growth of mathematics.
Water Waves and Hydrions: J. L. Synge ....................................... 13
The term "hydrion" is proposed for fictitious particles that travel with the
group velocity of waves.
De-Stalinization in Soviet Physiology: I. D. London .................... 16
The rehabilitation of L. A. Orbeli provides an example of historical
unwriting in Soviet science.

Cover
The artificial radiation belt created by the high-altitude nuclear explosion of 9 July.
The numbers represent the electron flux per square centimeter per second. For a
report on the symposium at which the results of the tests were discussed, see page 53.
