

SCIENCE

A WEEKLY JOURNAL DEVOTED TO THE ADVANCEMENT OF SCIENCE, PUBLISHING THE OFFICIAL NOTICES AND PROCEEDINGS OF THE AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE.

EDITORIAL COMMITTEE: S. NEWCOMB, Mathematics; R. S. WOODWARD, Mechanics; E. C. PICKERING, Astronomy; T. C. MENDENHALL, Physics; R. H. THURSTON, Engineering; IRA REMSEN, Chemistry; CHARLES D. WALCOTT, Geology; W. M. DAVIS, Physiography; HENRY F. OSBORN, Paleontology; W. K. BROOKS, C. HART MERRIAM, Zoology; S. H. SCUDDER, Entomology; C. E. BESSEY, N. I. BRITTON, Botany; C. S. MINOT, Embryology, Histology; H. P. BOWDITCH, Physiology; J. S. BILLINGS, Hygiene; WILLIAM H. WELCH, Pathology; J. MCKEEN CATTELL, Psychology; J. W. POWELL, Anthropology.

FRIDAY, NOVEMBER 29, 1901.

THE RELATION OF YALE TO MEDICINE.*

CONTENTS:

<i>The Relation of Yale to Medicine:</i> PROFESSOR WILLIAM HENRY WELCH.....	825
<i>Varietal Mutation in the Tomato:</i> DR. C. A. WHITE.....	841
<i>Scientific Books:—</i>	
<i>Bather on Echinoderms:</i> PROFESSOR C. E. BEECHER. <i>Overton's Studien über die Narcose:</i> DR. S. J. MELTZER. <i>Thomas's Les matières colorantes naturelles:</i> PROFESSOR MARSTON TAYLOR BOGERT. <i>Pfeffer's Pflanzenphysiologie:</i> DR. D. T. MACDOUGAL.....	844
<i>Scientific Journals and Articles.....</i>	847
<i>Societies and Academies:—</i>	
<i>The American Physical Society:</i> PROFESSOR ERNEST MERRITT. <i>The Biological Society of Washington:</i> T. W. STANTON. <i>The Torrey Botanical Club:</i> PROFESSOR EDWARD S. BURGESS. <i>The Science Club of the University of Wisconsin:</i> L. S. SMITH. <i>The Scientific Association of the University of Missouri:</i> DR. CHARLES THOM. <i>The Academy of Science of St. Louis:</i> PROFESSOR WILLIAM TRELEASE....	848
<i>Discussion and Correspondence:—</i>	
<i>The Python in Pennsylvania:</i> E. L. MOSELEY..	852
<i>Shorter Articles:—</i>	
<i>The Unexplained Southerly Deviation of Falling Bodies:</i> PROFESSOR FLORIAN CAJORI. <i>Astigmatic Images of the Bottom of a Pool of Water:</i> PROFESSOR FRANCIS E. NIPHER.....	853
<i>Notes on Inorganic Chemistry:</i> J. L. H.....	855
<i>Current Notes on Physiography:—</i>	
<i>The River System of Connecticut; Lake Winnipeg; A Piedmont Lake in Bavaria:</i> W. M. DAVIS.....	856
<i>Thermodynamics of the Gas Engine:</i> PROFESSOR R. H. THURSTON.....	859
<i>The New Star in Perseus.....</i>	860
<i>The U. S. Naval Observatory.....</i>	861
<i>Scientific Notes and News.....</i>	861
<i>University and Educational News.....</i>	864

ON this fourth jubilee of Yale University, speaking, as I trust I may, in behalf of many hundreds of physicians who have received their liberal or professional education in this institution, I bring affectionate greetings to our alma mater, and offer our hearty congratulations on this happy anniversary. With all the sons of Yale we join in the prayer of President Stiles: 'Peace be within thy walls, O Yale, and prosperity within thy palaces.'

Yale is related to medicine most directly through her medical department, but also through all who have studied here and subsequently practiced the art or cultivated the science of medicine. The Medical School, although the first department added to the College, was not established until over a hundred years after the foundation of the Collegiate School at Saybrook. From the beginning, however, graduates of the College are to be found in the ranks of medical practitioners, and any account of the relation of Yale to medicine would be most incomplete without some consideration of the alumni of the eighteenth century who were physicians. Their history makes a large part of the medical history of Connecticut during that century, but it is not limited to this State.

MSS. intended for publication and books, etc., intended for review should be sent to the responsible editor, Professor J. McKeen Cattell, Garrison-on-Hudson, N. Y.

* An address delivered October 21, 1901, at the two hundredth anniversary of the founding of Yale College.
