Education of American Teachers; Scientists, Lawyers, and Admirals; Research Grants and Overhead; Specialization in Medicine

EDITORIAL
The Appropriate Function of a University

ARTICLES
The Fifth Estate in the Seventh Decade: P. M. Gross
The status of science and scientists in the 1960's is reviewed.

Growth and Development of Cultured Plant Cells: F. C. Steward
Biochemical and morphogenetic studies with cells yield new evidence on their metabolism and totipotency.

NEWS AND COMMENT
Legislation—The Halfway Mark; Disarmament—Economic Implications

BOOK REVIEWS
A. Huxley's Literature and Science, reviewed by J. Barzun; other reviews

REPORTS
Low-Latitude Noctilucent Cloud of 2 November 1963: A. B. Meinel and C. P. Meinel

Pyrene and Fluoranthene in Manganese Nodules: D. W. Thomas and M. Blumer

Xanthine Dehydrogenase: Differences in Activity among Drosophila Strains: E. C. Keller, Jr., and E. Glassman

SCIENCE is published weekly by the American Association for the Advancement of Science, 1515 Massachusetts Ave., N.W., Washington, D. C. 20005. Now combined with The Science Weekly. Second-class postage paid at Washington, D.C. Copyright @ 1963 by the American Association for the Advancement of Science. Annual subscriptions: $8.00; foreign postage, $1.50; Canadian postage, 75c; single copies, 35c; School year subscriptions: 9 months, $7; 10 months, $7.50. Provide 4 weeks' notice for change of address, giving new and old address and zone numbers. Send a recent address label. Opinions expressed by authors are their own and do not necessarily reflect the opinions of the AAAS or the institutions with which the authors are affiliated. Indexed in the Readers' Guide to Periodical Literature.
Acceptance or Rejection of Male Skin by Isologous Female Mice: Effect of Injection of Sperm: G. F. Katsh, D. W. Talmage, S. Katsh

Intestinal Invertase: Precocious Development of Activity after Injection of Hydrocortisone: R. G. Doell and N. Kretchmer

DNA Segregation in Escherichia coli: Observations by Means of Tritiated Thymidine Decay: S. Person and M. Osborn

Oncogenic Effect of Human Adenovirus Type 12 in Mice: Y. Yabe et al.

Circularity of the Replicating Form of a Single-Stranded DNA Virus: B. Chandler et al.

Erythropoietin Production Following Gamma Irradiation and Hemorrhage in Dogs: N. Pesic, M. Radotic, S. Hajdukovic

Succinic Ester and Amide of Homoserine: Some Spontaneous and Enzymatic Reactions: M. Flavin, C. Delavier-Klutchko, C. Slaughter

Cutaneous Slowly Adapting Mechanoreceptors in the Cat: D. N. Tapper

Sarcomas in Cotton Rats Inoculated with Rous Virus: G. J. Svet-Moldavsky and I. A. Svet-Moldavskaya

Peromyscus Leucopus: An Interesting Subject for Studies of Socially Induced Stress Responses: C. H. Southwick

MEETINGS Superconductivity; Forthcoming Events

DEPARTMENTS New Products

COVER

Flowers of this wild carrot were produced from a tissue culture. Freely suspended cells were grown to embryoids, to plantlets, and then to the flowering stage. The morphology of the plant developed by this method is precise, even to the few red flowers at the center of the inflorescence. See page 20.
