ARTICLES
Effects of Cosmic Rays on Meteorites: M. Honda and J. R. Arnold
Meteorites are more suitable than terrestrial targets for studying the fossil record of cosmic radiation.
Hormones and Sexual Behavior: W. C. Young, R. W. Goy, C. H. Phoenix
Broad relationships exist between the gonadal hormones and behavior.
Trends in Scientific Research: P. H. Abelson
Rapid evolution of the frontiers is a hazard for scientists young and old.

COVER

After polycarbonate resin film has been bombarded with fission fragments and etched in a hot solution of sodium hydroxide, uniform holes about 5 microns in diameter are produced. Plastic filters developed by this method can be used to separate cancer cells from blood cells (about $\times 120$). See page 249.
