Scientists and Their Images .......................................................... 311

EDITORIAL

Approaching Ceilings in the Supply of Scientific Manpower: W. R. Brode ................................................................. 313

ARTICLES

Control of Growth and Development in Insects: H. A. Schneiderman and L. I. Gilbert
Several growth hormones appear to be isoprenoid derivatives, and some may act upon the cell nucleus.

NEWS AND COMMENT

Mohole—The Project That Went Awry (III); Budget—More for R&D; Animal Experimentation—No Federal Action ............................................. 333

BOOK REVIEWS

Scientists in National and World Affairs: A. A. Berle
Electron Scattering and Nuclear and Nucleon Structure, reviewed by C. L. Cowan; other reviews ......................................................... 334

REPORTS

Fission-Track Ages and Track-Annealing Behavior of Some Micas: R. L. Fleischer et al.
Geomagnetic Polarity Epochs: A. Cox, R. R. Doell, G. B. Dalrymple ................................................................. 334
High-Pressure Metallic Indium Telluride: Preparation and Crystal Structure: C. B. Sclar, L. C. Garrison, C. M. Schwartz ............... 335
Cretaceous Fossils Collected at Johnson Nunatak, Antarctica: J. C. Behrendt and T. S. Laudon ......................................................... 335
Equatorial Undercurrent of the Indian Ocean: J. A. Knauss and B. A. Taft ................................................................. 335
Marine Sediments: Effects of a Tube-Building Polychaete: E. W. Fager ................................................................. 335
Diglyceride Release from Insect Fat Body: A Possible Means of Lipid Transport: H. Chino and L. I. Gilbert ................................................................. 335

SCIENCE is published weekly by the American Association for the Advancement of Science, 1515 Massachusetts Ave., NW, Washington, D. C. 20005. Now combined with The Scientific Monthly 26. Second-class postage paid at Washington, D. C. Copyright © 1964 by the American Association for the Advancement of Science. Annual subscriptions $13.50; foreign postage, $1.50; Canadian postage, $5; single copies: $2.50. School year subscriptions: 9 months, $7; 10 months, $7.50. Provide 4 weeks' notice for change of address; giving new and old address and zone numbers. Send a recent address label. Opinions expressed by authors are their own and do not necessarily reflect the opinions of the AAAS or the institutions with which the authors are affiliated. Indexed in the Reader's Guide to Periodical Literature.
Swamp Mosquito, *Culiseta melanura*: Occurrence in an Urban Habitat: A. Spielman ............. 361
Rhesus and Crab-Eating Macaques: Intergradation in Thailand: J. Fooden ..................... 363
Caliphylaxis: Passive Transfer: H. Selye, G. Gabbiani, B. Tuchweber .......................... 365
Microsporum nanum: First Recorded Isolation from Animals in the United States: G. R. Bubash, O. J. Ginther, L. Aiello ..................................... 366
Cesium in Liriodendron and Other Woody Species: Organic Bonding Sites: G. N. Brown ............ 368
Selenoamino Acids: Decrease of Radiation Damage to Amino Acids and Proteins: F. Shimazu and A. L. Tappel .................................................. 369
Gibberellins: Their Effect on Antheridium Formation in Fern Gametophytes: B. R. Voeller ......... 373
Circadian Periodicity in the Concentration of Prolactin in the Rat Hypophysis: R. H. Clark and B. L. Baker ................................................................. 375
Hybridization of Half Molecules of Rabbit Gamma Globulin: A. Nisonoff and J. L. Palmer ........ 376
Iodine-131 Thyroid Dose from Milk in Italy during the Period September 1962 to February 1963: A. A. Cigna and F. G. Giorelli ........................................ 379
Mice Reared with Rats: Modification of Behavior by Early Experience with Another Species: V. H. Denenberg, G. A. Hudgens, M. X. Zarrow ............................. 380

**MEETINGS**
Fluid Mechanics before the Society for Natural Philosophy; Life: Origin and Evolution; Photosynthesis; Silica; Forthcoming Events ............................................ 382

**DEPARTMENTS**
New Products .............................................................................................................. 409

**COVER**
Sperm cells emerging from an antheridium of a gametophyte of *Anemia phylิตidis*. After exposure of the fern to gibberelic acid, large, knob-like antheridia form. Long, slender rhizoids and the sculptured spore coat are visible (about × 547). See page 373.
