Scientists and Their Images

ARTICLES
Approaching Ceilings in the Supply of Scientific Manpower: W. R. Brode
Control of Growth and Development in Insects: H. A. Schneiderman and L. I. Gilbert
Several growth hormones appear to be isoprenoid derivatives, and some may act upon the cell nucleus.

NEWS AND COMMENT
Mohole—The Project That Went Awry (III); Budget—More for R&D; Animal Experimentation—No Federal Action

BOOK REVIEWS
Scientists in National and World Affairs: A. A. Berle
Electron Scattering and Nuclear and Nucleon Structure, reviewed by C. L. Cowan; other reviews

REPORTS
Fission-Track Ages and Track-Anealing Behavior of Some Micas: R. L. Fleischer et al.
Geomagnetic Polarity Epochs: A. Cox, R. R. Doell, G. B. Dalrymple
High-Pressure Metallic Indium Telluride: Preparation and Crystal Structure: C. B. Sclar, L. C. Carrison, C. M. Schwartz
Cretaceous Fossils Collected at Johnson Nunatak, Antarctica: J. C. Behrendt and T. S. Laudon
Equatorial Undercurrent of the Indian Ocean: J. A. Knauss and B. A. Taft
Marine Sediments: Effects of a Tube-Building Polychaete: E. W. Fager

SCIENCE is published weekly by the American Association for the Advancement of Science, 1515 Massachusetts Ave., NW, Washington, D. C. 20005. Now combined with The Scientific Monthly &. Second-class postage paid at Washington, D.C. Copyright © 1964 by the American Association for the Advancement of Science. Annual subscriptions $8.50; foreign postage, $1.50; Canadian postage, $2; single copies, 35c. School year subscriptions: 9 months, $7; 10 months, $7.50. Provide 4 weeks' notice for change of address; giving new and old address and zone numbers. Send a recent address label. Opinions expressed by authors are their own and do not necessarily reflect the opinions of the AAAS or the institutions with which the authors are affiliated. Indexed in the Reader's Guide to Periodical Literature.
Swamp Mosquito, *Culiseta melanura*: Occurrence in an Urban Habitat: *A. Spielman* ........................................... 361

Structure of Lipoproteins: Covalently Bound Fatty Acids: *W. R. Fisher and S. Gurin* ........................................... 362

Rhesus and Crab-Eating Macaques: Intergradation in Thailand: *J. Fooden* ....................................................... 363

Caliphylaxis: Passive Transfer: *H. Selye, G. Gabbiani, B. Tuchweber* ............................................................. 365

*Microsporum nanum*: First Recorded Isolation from Animals in the United States: *G. R. Bubash, O. J. Ginther, L. Aiello* ...................................................... 366

Cesium in Liriophedron and Other Woody Species: Organic Bonding Sites: *G. N. Brown* ........................................ 368

Selenoamino Acids: Decrease of Radiation Damage to Amino Acids and Proteins: *F. Shimazu and A. L. Tappel* .............. 369

Gibberellins: Their Effect on Antheridium Formation in Fern Gametophytes: *B. R. Voeller* ........................................ 373

Circadian Periodicity in the Concentration of Prolactin in the Rat Hypophysis: *R. H. Clark and B. L. Baker* ............. 375

Hybridization of Half Molecules of Rabbit Gamma Globulin: *A. Nisonoff and J. L. Palmer* .................................... 376

Iodine-131 Thyroid Dose from Milk in Italy during the Period September 1962 to February 1963: *A. A. Cigna and F. G. Giorelli* ............................................. 379

Mice Reared with Rats: Modification of Behavior by Early Experience with Another Species: *V. H. Denenberg, G. A. Hudgens, M. X. Zarrow* ............................... 380

MEETINGS

Fluid Mechanics before the Society for Natural Philosophy; Life: Origin and Evolution; Photosynthesis; Silica; Forthcoming Events ....................................................... 382

COVER

Sperm cells emerging from an antheridium of a gametophyte of *Anemia phylitisidis*. After exposure of the fern to gibberellic acid, large, knob-like antheridia form. Long, slender rhizoids and the sculptured spore coat are visible (about × 547). See page 373.
