COVER

Asci of the wild type and of three auxotrophs of Sordaria fimicola. (Top) Asci of wild type which contain dark, mature ascospores. (Right) Asci of an arginine-requiring mutant which contain hyaline, nonviable ascospores. This auxotroph is a nonautonomous spore color mutant. (Bottom) Asci containing normal and nonviable ascospores of various colors of a lysine mutant. (Left) Abortive asci of a partially arginine-deficient mutant. See page 1067.
