COVER

Red-painted figure on rock wall at Abri de las Vegas in southwestern Spain (Badajoz). The date of the composition is uncertain but it is thought to be post-Ice Age Mesolithic and related to the art and "signs" of the Ice Age Magdalenian. Spanish rock art varies widely in complexity, style, meaning, and chronology. This composition has been analyzed as lunar. See page 743. [From Henri Breuil, courtesy Trianon Press, Paris, France]
