Reprints: A Proposal: A. F. Hofmann et al.; Scientist-Astronauts: Applications
Invited: D. K. Slayton; Basement Science: I. Warshawsky and H. L. Rosenthal;
Standardized Tests: A Third Possibility: J. W. Haslett 1251

EDITORIAL
Ground-Based Astronomy 1255

ARTICLES
Man's First Encounters with Metallurgy: T. A. Wertime 1257
Man's discovery of ores and metals helped to shape his sense of science, technology, and history.

Flip: An Oceanographic Buoy: P. Rudnick 1268
A novel structure provides a quiet platform of great stability for acoustic and other research at sea.

The Complex Epidemiology of Respiratory Virus Infections: C. H. Andrews 1274
We do not yet understand how seasonal and other factors affect the incidence of colds and influenza.

Teaching and the Expanding Knowledge: A. Szent-Györgyi 1278
The simplification that comes with expanding knowledge enables teaching to encompass this knowledge.

COVER

Prancing Achaemenid horses from the ancient Persian capital of Persepolis exemplify the synthesis of technology, art, and life possible through the medium of metals. The breed may well be that of a famous Median steed. However, the liquid style of presentation—so unlike the usual Persian bas-reliefs—is Greek. See page 1257. [Archeological Museum Tehran]
