The Great Teachers ....................................................................................... 1421

ARTICLES
The Electrical Activity of the Nervous System: M. A. B. Brazier .............. 1423
Electrical signals are the neurophysiologist's clue to coding in the nervous system.

Quantized Magnetic Flux in Superconductors: R. D. Parks .................. 1429
Experiments confirm Fritz London's early concept that superconductivity is a macroscopic quantum phenomenon.

The Outlook for World Population: J. M. Stycos ................................. 1435
Population control has begun to receive serious attention from governments and other organizations.

NEWS AND COMMENT
Scientists and Engineers in the Presidential Campaign .......................... 1440
Report from Europe: Britain Confronts Its Technical Options: V. K. McElheny .... 1446

BOOK REVIEWS

REPORTS
Radar Meteor Counts: Anomalous Increase during 1963: B. A. McIntosh and P. M. Millman ................................................................. 1457

Meteors: An Unexpected Increase in 1963: C. D. Ellyett and C. S. L. Keay .... 1458

Sonar Probing in Narragansett Bay: H. E. Edgerton et al. .................... 1459

Acetylene Ester from Aster spinosus: J. C. Spitzer and C. Steelink ......... 1460

Thermodynamic Equilibria in Prebiological Atmospheres: M. O. Dayhoff,
E. R. Lippincott, R. V. Eck ........................................................................ 1461

Polyoma Virus Genetic Material in a Virus-Free Polyoma-Induced Tumor: D. Axelrod, K. Habel, E. T. Bolton .......................................................... 1466

Endogenous Pyrogen Release from Rabbit Blood Cells Incubated in vitro with Parainfluenza Virus: E. Atkins, M. Cronin, P. Isacson ........................................ 1469

Muscular Contraction as Regulated by the Action Potential: A. Sandow and H. Preiser .......................................................... 1470

Interferon-Like Viral Inhibitor in Rabbits after Intravenous Administration of Endotoxin: M. Ho .................................................. 1472

Cycloheximide: Aspects of Inhibition of Protein Synthesis in Mammalian Cells: H. L. Ennis and M. Lubin ........................................ 1474

Bone Cells: Biochemical and Biological Studies after Enzymatic Isolation: W. A. Peck, S. J. Birge, Jr., S. A. Fedak .................................................. 1476

N^6-Benzyladenine: Inhibitor of Respiratory Kinases: V. Tuli, D. R. Dilley, S. H. Wittwer .................................................................................. 1477

Conjunctiva Contains Factor Inhibiting Growth of Candida albicans: P. J. Kozinn, L. Caroline, C. L. Taschdjian .................................................. 1479

Chlorinated Insecticides: Fate in Aqueous Suspensions Containing Mosquito Larvae: M. C. Bowman et al. .................................................. 1480

Averaged Brain Activity Following Saccadic Eye Movement: K. Gaarder et al. .................................................. 1481

Culturally Transmitted Patterns of Vocal Behavior in Sparrows: P. Marler and M. Tamura .................................................. 1483

Mangabey x and b Wave Electoretinogram Components: Their Dark-Adapted Luminosity Functions: A. E. Jones, M. C. Polson, R. L. DeValois .................................................. 1486

Comments on Reports: Relative Strontium and Calcium Uptake by Green Algae: L. G. Williams and N. K. Revern ................. 1488

MEETINGS

Enzyme Regulation in Mammalian Tissues: G. Weber; Diffusion in Oceans and Fresh Waters: G. B. Dowling and F. C. W. Olson; Forthcoming Events ................. 1489

COVER

Hover flies (Syrphus ribesii) may be recognized by a longitudinal, false vein in the wings between the radius and the media. Many are brightly colored and resemble bees, bumble bees, and wasps. They feed upon nectar and pollen of flowers and are of value as pollinators of many plants. See review of The Amazing World of Insects, page 1451. [Macmillan Company and A. Oosthoek Publishing Company]
