LETTERS
Fashion and Competition in Science: M. Z. von Krzywoblocki and E. L. Goldwasser; Aid for the University of Skopje: M. R. Newlin

EDITORIAL
A Pacific Tropical Botanical Garden

ARTICLES
Recognizing the Emergence of Man: R. Ascher and M. Ascher
Specific courses of action are necessary for identifying the traces of early man.

Dominance and Diversity in Land Plant Communities: R. H. Whittaker
Numerical relations of species express the importance of competition in community function and evolution.

Macromolecular Chemistry: G. Natta
From the Stereoscopic Polymerization to the Asymmetric Autocatalytic Synthesis of Macromolecules

NEWS AND COMMENT
Humanities Foundation: Support Growing—Weather Modification: Storm Signals—Environmental Health Center: The Battle Is Over

Report from Europe: Time of Trial for European Research Cooperation: V. K. McElheny

BOOK REVIEWS
Behavior and the Relative Importance of Values: C. W. Churchman

REPORTS
Hexanedione from Hydrocarbon Polymer Oxidation: E. M. Bevilacqua and P. M. Norling

SCIENCE is published weekly on Friday and on the fourth Tuesday in November by the American Association for the Advancement of Science, 1515 Massachusetts Ave., Washington, D.C. 20005. Now combined with The Scientific Monthly. Second-class postage paid at Washington, D.C. Copyright 1965 by the American Association for the Advancement of Science. Annual subscriptions: $8.50; foreign postage, $1.50; Canadian postage, 75c; single copies, 35c. School year subscriptions: 9 months, $7; 10 months, $7.50. Provide 4 weeks' notice of change of address, giving new and old address and zip numbers. Send a recent address label. SCIENCE is indexed in the Readers' Guide to Periodical Literature.
Particle Size Fractionation of Airborne Gamma-Emitting Radionuclides by Graded Filters: B. Shleien, T. P. Glavin, A. G. Friend

Quartz: Anomalous Weakness of Synthetic Crystals: D. T. Griggs and J. D. Blacic

Permeability of Insect Cuticle to Water and Lipids: M. Locke

Immune Reactivity in Mice Thymectomized Soon after Birth: Normal Response after Pregnancy: D. Osoba

Vocal Mimicry in Tursiops: Ability to Match Numbers and Duration of Human Vocal Bursts: J. C. Lilly

Imprinting: A Reassessment: P. H. Klopf er

Single-Unit Activity in the Cat’s Visual Cortex: Modification after an Intense Light Flash: A. D. J. Robertson and C. R. Evans

Choice Behavior in Rhesus Monkeys: Effect of Stimulation during the First Month of Life: G. P. Sackett, M. Porter, H. Holmes

Feminine Behavior in Neonatally Castrated and Estrogen-Treated Male Rats: H. H. Feder and R. E. Whalen

Comments on Reports: Albinism and Water Escape Performance in Mice: G. W. Meier and D. P. Foshee; H. D. Winston and G. Lindsey

MEETINGS
Ultrasonics: J. J. G. McCue; Biological Nitrogen Fixation: W. A. Bulen; Calorimetry: W. N. Hubbard; Bioastronautics and Space: J. Harmon; Lactic Acids: Chemistry and Metabolism: R. H. Dunlop; Forthcoming Events

DEPARTMENTS

COVER
Crystals of a salt, probably potassium acid acetate, in a 1-liter flask with a round bottom. The pattern was produced during the course of an experiment in which a solution of potassium acetate and acetic acid was being evaporated, under reduced pressure and with continuous rotation, for an entirely different purpose (about x 1.1). [Waldo E. Cohn and Photographic Services Department of Oak Ridge National Laboratory]
Science 147 (3655), 237-321.
