Science, Technology, and the Gold Drain

ARTICLES
Magnetic Fields in Interplanetary Space: L. J. Cahill, Jr.
A weak magnetic field pulled out from the sun has considerable influence on interplanetary processes.

Biosynthesis of Alkaloids: E. Leete
New and unexpected routes to the pyridine and piperidine rings have been discovered.

Animal Communication: T. A. Sebeok
A communication network model for languages is applied to signaling behavior in animals.

MEETINGS

COVER

Keiki, a trained Pacific bottlenose porpoise, swims free in the ocean near Oahu, Hawaii. During speed tests the animal would respond to signals emitted underwater by an electronic device. See page 1048 [Camera Hawaii, Honolulu]
