measure smooth muscle contraction with the

PHIPPS & BIRD

LINEAR MOTION TRANSUCERS

FEATURES
1. Allows linear recording of motion
2. Ideal for measuring a minimum of motion at low frequency
3. Low friction (50 mgfm)
4. High sensitivity
5. Reliability and accuracy
6. The ST2 can be connected to any suitable recorder.

ST2 Linear Motion Transducer without micrometer—Isotonic or Isometric Measurement Cat. No. 7053-460

Converter—An exciter-demodulator for use with D.C. or Servo type recorders
Cat. No. 7053-470

PHIPPS & BIRD, INC.
Manufacturers & Distributors of Scientific Equipment
6th & Byrd Streets — Richmond, Virginia

PERSONNEL PLACEMENT

CLASSIFIED: Positions Wanted. 25c per word, minimum charge $4. Use of Box Number counts as 10 additional words. Payment in advance is required.

COPY for ads must reach SCIENCE 2 weeks before date of issue (Friday of every week).

DISPLAY: Positions Open. Rates listed below—no charge for Box Number. Rates net. No agency commission allowed for ads under 4 inches. No cash discount.

Minimum ad: 1 inch. Ads over 1 inch will be billed at the nearest quarter inch. Frequency rate will apply only to repeat of same ad. No copy changes. Payment in advance is required except where satisfactory credit has been established. Send copy for display advertising to SCIENCE, Room 1740, 11 West 42 St., New York 36, N.Y.

Single insertion $6.00 per inch
4 inches in 1 year $40.00 per inch
For PROOFS on display ads, copy must reach SCIENCE 4 weeks before date of issue (Friday of every week).

Replies to blind ads should be addressed as follows:
Box (give number)
SCIENCE
1315 Massachusetts Ave., NW
Washington, D.C. 20005

POSITIONS WANTED

(a) Agronomy M.S.; weed control specialist; pesticide formulation, herbicide field testing experience; seeks research, development position. (b) Biochemistry Ph.D.; June 1965; anticancer penicillin synthesis studies; desires research opportunity. For details write Woodward Medical Personnel Bureau, 185 North Wabash, Chicago, Illinois 60601.

Biologist, B.S., male; 12 years of industrial pharmacology—toxicology, 2½ years of clinical biochemistry. Publications. P.O. Box 30123, Cincinnati, Ohio 45230. 5/21

Microbiologist, Ph.D., postdoctoral experience in electron microscopy. Desires teaching and/or research. New York City area but will relocate. Box 144, SCIENCE. 5/14

Microbiologist Ph.D., teaching and research experience (microbiology, exobiology, biodetection, and sterilization). Desires teaching and/or research position. Box 161, SCIENCE. X

Ph.D., experimental morphologist, radiobiologist; experience includes teaching in general biology, histology, embryology, radiobiology. Numerous publications in radiobiology. Desires associate professorship, to teach and do research. New York City or environs. Box 166, SCIENCE. X

Sensory/Physiological Psychologist Ph.D., 33. Experience primate conditioning, electrical recording, EEG. Teaching experience. Prefer aerospace-related research. Box 167, SCIENCE. X

Vertebrate Zoologist, Ph.D. Fifteen years of college and university experience. Seeks teaching-research position for one year (1965-1966) or on a permanent basis. Box 160, SCIENCE. 5/14

POSITIONS OPEN

Biochemist Nucleonics, expert Ph.D.; 15 years of academic teaching and research; 7 years of industrial research with responsible administration experience. Broad spectrum of research interests (basic and applied) in pharmacology, biochemistry, nutrition, nucleonics. Desire permanent position with opportunity for some research and teaching, or industrial research administrative position with growth potential. Many publications, references. Box 165, SCIENCE. X

Ph.D. Agricultural Education, special interest in technology and the history of science, 6 years of teaching experience at secondary and junior college levels in biology. Available August 1965. Box 163, SCIENCE. 5/21

LABORATORY TECHNICIAN

College graduate with degree preferred. Must be trained and experienced in blood group serology and genotyping. Salary commensurate with experience, ability, and education. Excellent program of employee benefits.

Please write Personnel Office, Indiana University, Medical Center, 1100 West Michigan Street, Indianapolis, Indiana. X
The Market Place

BOOKS • SERVICES • SUPPLIES • EQUIPMENT

DISPLAY: Insertions must be at least 1 inch in depth. Weekly inserts will be sent on a charge account basis—provided that satisfactory credit is established.

Single insertion $65 per inch
4 times in 1 year $50 per inch
13 times in 1 year $50 per inch
26 times in 1 year $50 per inch

PROOFS: If copy is to be set, and proofs submitted for approval, complete copy and cuts must be received 4 weeks in advance of issue date (Friday of each week); complete plates no later than 3 weeks in advance of issue date.

HOLLISTER 835 N. Orleans, Chicago, Ill. 60610

Your gift speaks for America
when you feed hungry people
with $1 Food Crusade packages
through CARE, New York 10016.
These six features, available only on the VICKERS M-32 Microscope/Camera System, give you new research capabilities unavailable with any other microscope!

**Powerful New Light Source**
100 Watt Quartz iodine lamp is built in with full controls for true Kohler illumination. Variable intensity control at front of operating panel. Sufficient light for micro projection.

**Accepts Specimens to 90mm High**
The microscope body can be raised on its slide to give a clearance which will accommodate very large objects such as tissue culture flasks and other special experimental set-ups.

**A Unitized Camera/Microscope System**
Any of the Vickers cameras can be integrally mounted and quickly interchanged. Available are 35mm, Polaroid®, plate and cine time-lapse; — with choice also of fully automatic 35mm and auto-exposure 35mm and Polaroid®.

**Fixed Stage with Large Work Area**
Stage does not move in focusing, giving it the stability necessary in micromanipulation and other special techniques. Stage is 7½" x 9" with graduated 2" x 3" movement.

**Variety of Beam splitter/Body Combinations**
Two beam-splitter boxes are offered — one varying instantaneously from 50% visual 50% camera to 100% camera — the other 100% visual to 100% camera. Monocular or binocular bodies fit as required to prism box in use.

**Design for Convenient, Stable Trouble-Free Operation**
All controls for focus and illumination are grouped on a central panel with stage and condenser adjustments directly above. All operations can be carried out conveniently with either right or left hand. All focusing and stage motions are ball-bearing.

Send for M-32 Catalog which fully describes many other design features of this microscope and lists the wide range of optical and photomicrographic accessory equipment offered.
