What Are Professors For?

ARTICLES
Toxicology and the Biomedical Sciences: B. B. Brodie, G. J. Cosmides, D. P. Rall
Molecular Transitions and Chemical Reaction Rates: B. Widom
Megaloscience: J. B. Adams
Nervous System Research with Computers: G. D. McCann

NEWS AND COMMENT
Report from Europe: World Health Organization Shelves Research Center Plan:
V. K. McElheny

BOOK REVIEWS
Modifying Man: Muller's Eugenics and Lederberg's Euphenics: J. F. Crow
Differential Equations and Their Applications, reviewed by D. G. Bourgin;
other reviews by C. H. Li, C. E. Marshall, S. J. Angello, S. Carlquist,
W. A. J. Luxemburg, P. E. L. Smith, R. A. Struble, J. L. Cornette,
C. T. Wemyss, R. D. Myers

REPORTS
Io-Related Radio Emission from Jupiter: G. A. Dulk
Phase Relations in the System Na2Si3O7–SiO2: J. Williamson and F. P. Glasser
Specificity of Macroglobulin Antibody Synthesized by the Normal Human Fetus:
W. V. Epstein
