ARTICLES
The European Space Research Organization: R. Lust
What Are We Doing to Engineering?: J. R. Pierce
Periodontal Disease in Developing Nations: H. S. Sinrod

NEWS AND COMMENT
Report from Europe: Decisions on Nuclear Power: V. K. McElheny

BOOK REVIEWS
Nervous Systems and How They Work: D. L. Ray

REPORTS
Suppression in vitro: Identification of a Serine-sRNA as a “Nonsense” Suppressor: M. R. Capecchi and G. N. Gussin
Dynein: A Protein with Adenosine Triphosphatase Activity from Cilia: I. R. Gibbons and A. J. Rowe
Radiation-Induced Increases in Fitness in the Flour Beetle Tribolium confusum: J. W. Crenshaw
Spermidine in Regenerating Liver: Relation to Rapid Synthesis of Ribonucleic Acid: W. G. Dykstra, Jr., and E. J. Herbst
Pseudouridine Formation: Evidence for RNA as an Intermediate: 
S. B. Weiss and J. Legault-Demare ........................................ 429
Iron-55 in Humans and Their Foods: H. E. Palmer and T. M. Beasley .... 431
Adult Thymectomy: Effect on Recovery from Immunologic Depression in Mice: 
A. P. Monaco, M. L. Woods, P. S. Russell .................................. 432
Human Transferrins C and D1: Chemical Difference in a Peptide: 
A.-C. Wang and H. E. Sutton .................................................. 435
Molt and Intermolt Activities in the Epidermal Cells of an Insect: 
M. Locke, W. V. Condoulis, L. F. Hurshman ................................ 437
Pigmented Nevi and Malignant Melanomas as Studied with a Specific 
Fluorescence Method: B. Falck et al. ....................................... 439
Spontaneous Opiate Addiction in Rhesus Monkeys: J. L. Claghorn, J. M. Ordy, 
A. Nagy .................................................................................. 440
Pleistocene Glaciation: A Criterion for Recognition of Its Onset: 
D. H. Krinsley and W. S. Newman ........................................... 442
Optical Activity in the Orgueil Meteorite: R. Hayatsu ....................... 443
Square Root Variations of Reciprocal Graphing of Enzyme Kinetic Data: 
P. Stutts and I. Fridovich .......................................................... 447
Helium-Glow Photometer for Picomole Analysis of Alkali Metals: 
G. G. Vurek and R. L. Bowman ............................................... 448
Brain Catecholamines: Relation to the Defense Reaction Evoked by Amygdaloid 
Stimulation in Cat: D. J. Reis and L.-M. Gunne ............................. 450
Hypothalamic Lesions by Electrocauterization: Disinhibition of Feeding and 
Self-Stimulation: B. G. Hoebel ................................................. 452

ASSOCIATION AFFAIRS
Fourth Berkeley Meeting: R. L. Taylor ........................................ 454

MEETINGS
Information and Control Processes in Living Systems: D. Ramsey; 
Forthcoming Events ................................................................. 459

DEPARTMENTS
New Products ........................................................................... 479

Cover
Filtration of cancer cells by means of a plastic sieve. The holes have been 
etched to a diameter of 5 microns; holes of this size allow blood cells to 
pass through but catch most cancer cells. The cells have been stained and 
appear as irregular shapes. The fission-track holes are circular. See page 383.
