BOOK REVIEWS

End of an Era in Biology: G. G. Simpson

The Revolution in Anthropology; reviewed by W. H. Goodenough; other reviews by J. McCoy, P. H. Kloper, J. L. Lebowitz, R. J. Williams, H. S. W. Massey, L. M. Roth, L. Kilham, E. B. Kurtz, Jr., W. R. Brode; Conference and Symposium Reports

REPORTS

Tenuous Surface Layer on the Moon: Evidence Derived from Radar Observations: T. Hagfors et al.

Mars: Compatible Determinations of Surface Pressure through Particle Scattering: J. A. Greenspan

Gamma-Globulin Factors (Gm and Inv) in New Guinea: Anthropological Significance: E. Giles, E. Ogan, A. G. Steinberg

Volume Measurements on Chromium to Pressure of 30 Kilobars:  
W. E. Evenson and H. T. Hall ........................................... 1164

Sea-Level Changes during the Last 2000 Years at Point Barrow, Alaska:  
J. D. Hume ........................................................................... 1165

Electron Microscopy: Sodium Localization in Normal and Ouabain-Treated  
Transporting Cells: G. I. Kaye, J. D. Cole, and A. Donn .......... 1167

Sulfur: Incorporation into the Transfer Fraction of Soluble Ribonucleic Acid:  
T. Schleich and J. Goldstein .................................................. 1168

Flavonoids from the Moss Mnium affine Bland: T. E. Melchert and R. E. Alston .... 1170

Energy Intake of the Mourning Dove Zenaidura macroura marginella: W. D. Schmid . 1171

Electrical Output of Lizard Ear: Relation to Hair-Cell Population:  
E. G. Wever et al. .................................................................. 1172

Heterothallism in Biflagellate Aquatic Fungi: Preliminary Genetic Analysis:  
J. T. Mullins and J. R. Raper .................................................. 1174

Immunoglobulin A Production in Ataxia Telangiectasia: D. E. McFarlin et al. .... 1175

Immunogenicity and Role of Size: Response of Guinea Pigs to Oligotyrosine and  
Tyrosine Derivatives: F. Borek, Y. Stupp, M. Sela .................... 1177

Bacterial Stimulation of Sporangium Production in Phytophthora cinnamomi:  
G. A. Zentmeyer ................................................................... 1178

Quenching of DNA Phosphorescence: I. Isenberg, S. L. Baird, Jr., R. Rosenbluth . 1179

Allograft Survival: Effect of Antiserums to Thymus Glands and Lymphocytes:  
H. Nagaya and H. O. Sieker .................................................... 1181

Iodine: Accumulation by Balanoglossus gigas: F. B. De Jorge et al. .......... 1182

Phosphatase Mutants in Aspergillus nidulans: G. Dorn ...................... 1183

Hearing Sensitivity in Bats: J. I. Dalland ..................................... 1185

Evoked-Potential Correlates of Stimulus Uncertainty: S. Sutton et al. .... 1187

ASSOCIATION AFFAIRS

AAAS Annual Meeting: Steroid Hormones and the Pill .................. 1189

MEETINGS

Arabidopsis Research: G. Röbbelen; Forthcoming Events .............. 1192

COVER

The great horned owl (Bubo virginianus) is widely distributed throughout the timbered regions of North, Central, and South America, from the arctic regions to the Straits of Magellan. It is a ravenous feeder on a great variety of animal life, and a generous provider for its young. Almost any living creature that walks, crawls, flies, or swims, except the larger mammals, is its prey. See review of Encyclopedia of the Life Sciences, page 1151. [Ellen Kolansky, Science]
