Preventing Obsolescence: M. H. Bolster; I. Katz; P. R. Amlinger; W. R. Muehlberger;
More on Extrasensory Induction of Brain Waves: C. T. Tart; G. M. Robertson;
T. D. Duane and T. Behrendt; Parlor Game and Boop-Boop-a-Doop:
J. P. Hennes; T. H. Jukes; Game Theory: C. E. Mauk

Priority

Dynamics of Interplanetary Dust: M. J. S. Belton
Birth Order and Its Sequelae: W. D. Altus
Elementary Science: A New Scheme of Instruction: R. M. Gagné

Social Influences and Scientists: A. T. Waterman
Neighbors of the Earth—Planets, Comets, and the Debris of Space, reviewed by
J. C. Brandt; other reviews by E. N. Ferdon, Jr., P. S. Taylor, A. C. Smith,
T. D. Stewart, R. J. Schicht, J. A. Roper; New Books; Conferences and
Symposium Reports

Thymine Addition to Ethanol: Induction by Gamma Irradiation:
P. E. Brown, M. Calvin, J. F. Newmark
Mobility of the Hydrated Electron: K. H. Schmidt and W. L. Buck
A Search for Intergalactic Hydrogen in the Virgo Cluster: S. J. Goldstein, Jr.
Gravitational Lens Effect: An Observational Test: W. A. Feibelman
Tungsten Diboride: Preparation and Structure: H. P. Woods, F. E. Wawner, Jr.,
B. G. Fox
Wormlike Fossil from the Pennsylvanian of Illinois: E. S. Richardson, Jr.
New Symbols for the Amino Acid Residues of Peptides and Proteins:
D. Wellner and A. Meister
Bradykinin: Effect on Ureteral Peristalsis: P. Catacutan-Labay and S. Boyarsky
Cyclopentanoid Terpene Biosynthesis in a Phasmid Insect and in Catmint:
J. Meinwald et al.
Endoplasmic Reticulum in Rat Renal Interstitial Cells: Molecular Rearrangement after Water Deprivation: R. E. Bulger, L. D. Griffith, B. F. Trump .............. 83
Inositol Deficiency Resulting in Death: An Explanation of Its Occurrence in Neurospora crassa: P. Matile ......................................................... 86
Uncoupling of a Nerve Cell Membrane Junction by Calcium-Ion Removal: R. D. Penn and W. R. Loewenstein ........................................... 88
Uncoupling of an Epithelial Cell Membrane Junction by Calcium-Ion Removal: M. Nakas, S. Higashino, W. R. Loewenstein ........................................... 89
Properties of Bursicon: An Insect Protein Hormone That Controls Cuticular Tanning: G. Fraenkel, C. Hsiao, M. Seligman .................................... 91
Chromosome Complement: A Fertile Hybrid between Equus przewalskii and Equus caballus: L. Koulischer .......................................................... 93
Photoperiodic Induction of Senescence in Xanthium Plants: D. T. Krizek, W. J. McIlrath, B. S. Vergara .......................................................... 95
Myristicin in Cigarette Smoke: I. Schmelz et al ........................................... 96
Homograft Target Cells: Contact Destruction in vitro by Immune Macrophages: G. A. Granger and R. S. Weiser .......................................................... 97
Sulfur Mustard: Reaction with L-Cells Treated with 5-Fluorodeoxyuridine: I. G. Walker .......................................................... 99
Tobacco Seedlings: Damage by Excessive Nitrogen Lessened by Added Phosphorus: N. L. Pal and R. J. Ojha .......................................................... 106
Abscisin II: Inhibitory Effect on Flower Induction in a Long-Day Plant: L. T. Evans .......................................................... 107
Food Imprinting in the Snapping Turtle, Chelydra serpentina: G. M. Burghardt and E. H. Hess .......................................................... 108
Technical Comments: Quaternary Stratigraphy: M. M. Leighton .......................................................... 109

MEETINGS  Ethological Study of Behavior: J. C. Fentress; Thermal Analysis: C. B. Murphy; Forthcoming Events .......................................................... 110

COVER  An experiment in science education, Science—A Process Approach, is being carried on by the AAAS Commission on Science Education. The scheme centers on developing children's skills in using scientific procedures. Depicted on the cover is some of the equipment used by children of kindergarten age to learn the processes of measuring, observing, and using space-time relations. See page 49. [Federal Graphics, Washington, D.C.]
