LETTERS
Social Science: Support Now: T. A. Anderson; Art and Science? Yes!: D. G. Barry; R. A. Durst; M. A. Powers; That Biblical Spider Again: M. W. Burke-Gaffney

ARTICLES
Chemical Releases at High Altitudes: N. W. Rosenberg
Plant Pathology and Human Welfare: A. J. Riker
Plans for Project Intrex: C. F. J. Overhage

NEWS AND COMMENT
Report from Europe: Science Center in Siberia: V. K. McElheny

BOOK REVIEWS
Symmetry Groups in Nuclear and Particle Physics and Lie Groups for Physicists, reviewed by A. O. Barut; other reviews by G. G. Simpson, I. G. Sohn, R. Longabaugh, J. R. Weinberg, J. M. Miller, G. Williams-Ashman; New Books

REPORTS
Mariner IV: Analysis of Preliminary Photographs: A. B. Binder
Sediments from the Lower Columbia River and Origin of Graywacke: J. T. Whetten
Strontium-90 Fallout from Surface and Underground Nuclear Tests: T. Sotobayashi and S. Koyama
Color Center in Amethyst Quartz: G. Lehmann and W. J. Moore
Lead-210 and Polonium-210 in Biological Samples from Alaska: T. M. Beasley and H. E. Palmer
Enzyme Action: Comparison on Soluble and Insoluble Substrate: J. M. Schurr and A. D. McLaren
Multiple Sclerosis: Serum Factor Producing Reversible Alterations in Bioelectric Responses: J. A. Cerf and G. Carrel
Stable Complex of Fibrinogen and Fibrin: T. Sasaki, J. H. Page, J. R. Shainoff
Replication of Chloroplast DNA of Tobacco: B. R. Green and M. P. Gordon

BOARD OF DIRECTORS
HENRY EYRING Retiring President, Chairman
ALFRED S. ROMER President
DON K. PRICE President Elect
H. BENTLEY CLASS President

Myopathies: Eighth Chromium-51 Ethylenediaminetetraacetate for Estimation of Glomerular Filtration Rate: B. D. Stacy and G. D. Thorburn .......................................................... 1076
Urease Activity in Blue-Green Algae: D. S. Berns, P. Holohan, E. Scott .......................................................... 1077
Neurosecretory Cells: Daily Rhythmicity in Leiozoea longipes: D. J. Fowler and C. J. Goodnight .......................................................... 1078
Virus-Induced Murine Leukemia: Its Inhibition and Suppression by Serum Containing Erythropoietin: P. G. Standy and P. E. Schiop .......................................................... 1082
Partial Purification and Electron Microscopy of Virus in the EB-3 Cell Line Derived from a Burkitt Lymphoma: I. Toplin and G. Schidlovsky .......................................................... 1084
Glucocorticoid-Induced Resistance to Deoxycholate Lysis in HeLa Cells: G. Melnykovych .......................................................... 1086
Adenosine Triphosphate: Protection against Radiation-Induced Chromosome Loss in Drosophila: S. Mittler and Raymond U .......................................................... 1087
Diatoms and the Ecological Conditions of Their Growth in Sea Ice in the Arctic Ocean: H. Meguro, K. Ito, H. Fukushima .......................................................... 1089
Sceloporus occidentalis: Preferred Body Temperature of the Western Fence Lizard: S. M. McGinnis .......................................................... 1090
Pleistocene Age Determinations from California and Oregon: H. G. Richards and D. L. Thurber .......................................................... 1091
Receptive Fields of Directionally Selective Units in the Optic Nerve of the Gound Squid: C. R. Michael .......................................................... 1092
Receptive Fields of Opponent Color Units in the Optic Nerve of the Ground Squid: C. R. Michael .......................................................... 1095
Postsynaptic versus Presynaptic Inhibition in Antagonistic Stretch Reflexes: D. G. Green and J.-O. Kellerth .......................................................... 1097
Perception of Temporal Order and Relative Visual Latency: R. Rutschmann .......................................................... 1099
List Differentiation with Varied Trials on Both Lists: E. Winograd and W. S. Smith .......................................................... 1101
Optomotor Responses by Echolocating Bats: R. A. Sutliff .......................................................... 1102
Electroencephalographic Activation: Nonspecific Habituation by Verbal Stimuli: T. Mulolland and E. Davis .......................................................... 1104

MEETINGS
Myopathies: E. Bajusz and F. Homburger, Chemistry at High Temperatures: M. A. Paul and J. L. Margrave; Forthcoming Events .......................................................... 1112

ASSOCIATION AFFAIRS
Eighth Washington Meeting: R. L. Taylor .......................................................... 1117

COVER
The ground squirrel (Citellus mexicanus), a diurnal animal, has an all-cone retina, within which there are complex neural mechanisms for integrating information bearing on the discrimination of movement and color. See page 1092. [Charles H. Weber and Charles R. Michael, Johns Hopkins University, Baltimore, Maryland]
