SCIENCE is published weekly on Friday and on the fourth Tuesday in November by the American Association for the Advancement of Science, 1515 Massachusetts Ave., Washington, D.C. 20005. Second-class postage paid at Washington, D.C. Copyright © 1966 by the American Association for the Advancement of Science. Annual subscriptions: $6.50; foreign postage, $1.50; Canadian postage, 75c; single copies, 35c; except Guide to Scientific Instruments, which is 50c. Add 10c for first-class postage. No responsibility is assumed for unsolicited manuscripts and photographs. All manuscripts, except Notes and Comments, must be accompanied by a self-addressed, stamped envelope. Comments may be faxed to 202-326-6549. No part of this publication may be reproduced, stored in a retrieval system, or transmitted, in any form or by any means, electronic, mechanical, photocopying, microfilming, recording, or otherwise, without the prior written permission of the publisher. SCIENCE is indexed in the Reader's Guide to Periodical Literature.
Nitrogen- and Helium-Induced Anoxia: Different Lethal Effects on Rye Seeds:  
R. L. Latterell .......................... 69

Montmorillonite: Effect of pH on Its Adsorption of a Soil Humic Compound:  
M. Schnitzer and H. Kodama .......................... 70

Conditions for Purine Synthesis: Did Prebiotic Synthesis Occur at Low Temperatures?  
R. Sanchez, J. Ferris, L. E. Orgel .......................... 72

Circadian Rhythm in Pineal Tyrosine Hydroxylase: E. McGeer and P. L. McGeer .................. 73

Antiserum to Immunoglobulin A: Inhibition of Cell-Mediated Demyelination  
in Tissue Culture: G. F. Winkler and B. G. Arnason .......................... 75

Polysomes and Protein Synthesis in Cells Infected with a DNA Virus:  
R. J. Sydiskis and B. Roizman .......................... 76

Calibration of Gauges for Determining Leaf Water Status:  
P. G. Jarvis and R. O. Slatyer .......................... 78

Influence of the Lethal Yellow (Ay) Gene on Estrous Synchrony in Mice:  
A. Bartke and G. L. Wolf .......................... 79

Mechanism of a Reaction in vitro Associated with Delayed-Type Hypersensitivity:  
B. R. Bloom and B. Bennett .......................... 80

Dimethyl Sulfoxide: Lens Changes in Dogs during Oral Administration:  
L. F. Rubin and P. A. Mattis .......................... 83

Glucuronidase Gene Expression in Somatic Hybrids: R. Ganschow .......................... 84

Sleep Deprivation in the Rat: R. A. Levitt .......................... 85

Qualitative versus Directional Cues in Two Forms of Differentiation:  
C. Dobrzecka, G. Szwejkowska, J. Konorski .......................... 87

Technical Comments: Higher Education: A Population Flow Feedback Model:  
A. Reisman .......................... 89

Nucleic Acid and Protein Chemistry: R. D. Cole and C. A. Dekker;  
Forthcoming Events .......................... 92

Examples of "incongruity," the possession by a stimulus pattern of characteristics that a human subject will generally have learned to regard as incompatible. Such pictures have been used in experiments on curiosity and other motivational effects of "collative" stimulus properties. See page 25. [S. E. Burgess]
