REPORTS

Djerfisherite, Alkaline Copper-Iron Sulfide: A New Mineral from Enstatite Chondrites: L. H. Fuchs
Mummified Pleistocene Ostracods in Alaska: R. A. M. Schmidt and P. V. Sellmann
Kyanite-Andalusite Equilibrium from 700° to 800°C: R. C. Newton
Oxygen Isotope Studies of Ivory Coast Tektites and Impactite Glass from the Bosumtwi Crater, Ghana: H. P. Taylor, Jr., and S. Epstein
Olffactory Discrimination in the Rabbit Olfactory Glomerulus: J. Leveau and P. MacLeod
Radioautographic and Electron-Microscopic Evidence of Rapid Uptake of Antigen by Lymphocytes: S. S. Han and A. G. Johnson ...................................................... 176
RNA Composition and Base Pairing: W. Traub and D. Elson ........................................ 178
Beta-1C-Globulin: Metabolism in Glomerulonephritis: C. A. Alper, A. S. Levin, F. S. Rosen .......................................................... 180
Satellite Deoxyribonucleic Acid from Bacillus cereus strain T: H. A. Douthit and H. O. Halvorson .......................................................... 182
Hypophyseal Control of Genetic Expression during Chick Feather and Skin Differentiation: M. B. Yatvin ...................................................... 184
Lipid Films as Transducers for Detection of Antigen-Antibody and Enzyme-Substrate Reactions: J. del Castillo et al. ........................................ 185
Diagenesis of Carbonate Sediments: Interaction of Magnesium in Sea Water with Mineral Grains: R. A. Berner ...................................................... 188
Foraminiferal Evidence of a Shallow Calcium Carbonate Solution Boundary, Ross Sea, Antarctica: J. P. Kennett ...................................................... 191
Ambrosia Fungi: Extent of Specificity to Ambrosia Beetles: L. R. Batra ...................................................... 193
Satellite Deoxyribonucleic Acid from Bacillus cereus strain T: H. A. Douthit and H. O. Halvorson .......................................................... 182
Beta-1C-Globulin: Metabolism in Glomerulonephritis: C. A. Alper, A. S. Levin, F. S. Rosen .......................................................... 180
RNA Composition and Base Pairing: W. Traub and D. Elson ........................................ 178
Lipid Films as Transducers for Detection of Antigen-Antibody and Enzyme-Substrate Reactions: J. del Castillo et al. ........................................ 185

**MEETINGS**

**COVER**

A Mexican free-tailed bat (Tadarida brasiliensis mexicana) as it emerges from Carlsbad Caverns at dusk. The camera was timed by a signal from a photomultiplier tube when the bat intercepted a beam of light. See page 201. [Harold E. Edgerton, Massachusetts Institute of Technology]
