PACIFIC DIVISION
Eleanor Viebeck Executive Secretary
Daniel G. Aldrich, Jr. President

SOUTHWESTERN AND ROCKY MOUNTAIN DIVISION
Marie P. Anderson Executive Secretary

SCIENCE is published weekly on Friday and on the fourth Tuesday in November by the American Association for the Advancement of Science, 1515 Massachusetts Ave., Washington, D.C. 20005. Now combined with The Scientific Monthly. Second-class postage paid at Washington, D.C. Copyright © 1966 by the American Association for Advancement of Science. Annual subscriptions $8.50; foreign postage, $1.50; Canadian postage, 75c; single copies, 35c; except Guide to Scientific Instruments, which is free to library subscribers. United States Postmasters: Send form 3579 to SCIENCE, 1515 Massachusetts Ave., Washington, D.C. 20005. Send a remittance. SCIENCE is indexed in The Reader's Guide to Periodical Literature.
Pressure-Induced Dehydration Reactions and Transitions in Inorganic Hydrates: R. R. Sood and R. A. Stager ........................................ 388
1,2-Dialkyl-4(3H)-Quinazolinones in the Defensive Secretion of a Millipede (Glomeris marginata): Y. C. Meinwald, J. Meinwald, T. Eisner .......... 390
Light Chains of Mouse Myeloma Proteins: Partial Amino Acid Sequence: R. Perham, E. Appella, M. Potter ......................................... 391
Protein-Polysaccharide Loss during Endochondral Ossification: Immunochemical Evidence: A. Hirschman and D. D. Dziewiatkowski .... 393
Sleep: Suppression of Rapid Eye Movement Phase in the Cat after Electroconvulsive Shock: H. B. Cohen and W. C. Dement .................... 396
Hemoglobin Polymorphism in Macaca nemestrina: M. H. Crawford ....... 398
Alkanes in Fungal Spores: J. Oró, J. L. Laseter, D. Weber .................. 399
Carbamylation and Binding Constants for the Inhibition of Acetylcholinesterase by Physostigmine (Eserine): A. R. Main and F. L. Hastings .. 400
Pituitary Tumors in Mice after Prolonged Feeding of Synthetic Progestins: W. E. Poel ................................................................. 402
Dealkylation and Loss of Capacity for Reactivation of Cholinesterase Inhibited by Sarin: L. W. Harris et al. .......................................... 404
Inherited Variations of Human Serum α1-Antitrypsin: F. Kueppers and A. G. Bearn ................................................................. 407
Ribosomes from Pear Fruit: L. (Lim) Ku and R. J. Romani ...................... 408
Technical Comment: Age of the Ocean Floor: E. Orowan; M. Ewing, X. Le Pichon, M. G. Langseth, Jr ................................................. 413

COVER

One of the pair of al-Hadida (Wabar) craters, located in the Rub' al-Khali desert of southeastern Arabia. Meteorite material and coesite have been recovered from these craters, which are 55 and 97 meters in diameter. Scattered within the craters, around the lips, and beyond are lumps of white sandstone-like material. It is assumed that the lumps were produced by shock-lithification during meteorite impact (see page 382). [Arabian American Oil Company]
