LETTERS
Water or Nuclear Power: Which Costs Less?: L. I. Moss; Ph.D.'s Need High Hurdles: G. R. Wren; Conspiracy and Espionage: R. G. Kazmann; T. P. Leary

EDITORIAL
Brain Drain

ARTICLES
Radar Observations of Insects in Free Flight: K. M. Glover et al. 
Growth-Rings of Trees: Their Correlation with Climate: H. C. Fritts
Scientific Advice in the State Department: E. B. Skolnikoff

NEWS AND COMMENT
Anti-Missile Missile—Next Entry in the Arms Race?: Reischauer and Thomson—Dissent on Asian Policy: Argentine Crisis Footnote—American Scientists Reply; UNESCO—Marks 20th Anniversary; Science and Technology—House Approach

BOOK REVIEWS
Soviet Books in Oceanography: F. T. Manheim

REPORTS
Energy Spectra of a Number of Celestial X-Ray Sources in the Energy Range from 2 to 60 Kiloelectron Volts: K. G. McCracken
Eclogistic Pyroxenes, Ordered with P2 Symmetry: J. R. Clark and J. J. Papke
Crystal Structure of the Zeolite Paulingite: E. K. Gordon, S. Samson, W. B. Kamb
Silurian of Central Texas: A First Record for the Region: V. E. Barnes et al.
Carbon Tetrachloride: A New Crystalline Modification: R. Rudman and B. Post
Photochemical Evolution of Oxygen from Certain Aqueous Solutions: B. Behar and G. Stein
Thermal Properties of Water: Discontinuities Questioned: M. Falk and G. S. Kell
Species Specific Effect of Acetylcholine on Bivalve Rectums: M. J. Greenberg
Histamine Synthesis in Man: Inhibition by 4-Bromo-3-Hydroxybenzoxylamine: R. J. Levine
Phytohemagglutinin: Inhibition of the Agglutinating Activity by N-Acetyl-D-Galactosamine: H. Borberg et al.
Juvenile Hormone: Identification of an Active Compound from Balsam Fir: W. S. Bowers et al.

SCIENCE is published weekly on Friday and on the fourth Tuesday in November by the American Association for the Advancement of Science, 1515 Massachusetts Ave., Washington, D.C. 20005. New combined with The Scientific Monthly. Second-class postage paid at Washington, D.C. Copyright © 1966 by the American Association for the Advancement of Science. Annual subscriptions $8.50; foreign postage, $1.50; Canadian postage, 75¢; single copies, 25¢, except Guide to Scientific Instruments, which $1.00; School year subscriptions: 9 months, $7.10, 10 months, $7.50. Provide 4 weeks' notice of change of address, giving new and old address and zip numbers. Send a remittance label. SCIENCE is indexed in the Reader's Guide to Periodical Literature.
Proliferation of Cells in the Central Cylinder of the Reduced Mutant in Lanceolate Tomato: J. L. Caruso and E. G. Cutler .................................................. 1021
Curare as a Neuromuscular Blocking Agent in Insects: F. V. McCann ............................................. 1023
Hemoglobin Freiburg: Abnormal Hemoglobin Due to Deletion of a Single Amino Acid Residue: R. T. Jones et al. .................................................. 1024
Co-linearity of $\beta$-Galactosidase with Its Gene by Immunological Detection of Incomplete Polypeptide Chains: A. V. Fowler and I. Zabin .................................................. 1027
Respiration of a Forest Measured by Carbon Dioxide Accumulation during Temperature Inversion: G. M. Woodwell and W. R. Dykeman .................................................. 1031
Multiple Gene Loci for the Monomeric Hemoglobin of the Hagfish (Eptatretus stoutii): S. Ohno and M. Morrison .................................................................................. 1034
Direct Test of the Power Function for Loudness: L. E. Marks and A. W. Slawson ........................................... 1036
Inactive Alkaline Phosphatase in Duodenum of Nursling Mouse: Immunological Evidence: M. E. Etzler and F. Moog .................................................. 1037
X-Ray Detection by the Olfactory System: Ozone as a Masking Odorant: E. L. Gasteiger and S. A. Heiling .................................................................................. 1038
Genetically Determined Antigen of the Ne Subgroup of Gamma-Globulin: Detection by Precipitin Analysis: H. G. Kunkel, W. J. Yount, S. D. Litwin .................................................. 1041
Lethal Effects of Synthetic Juvenile Hormone on Larvae of the Yellow Fever Mosquito, Aedes aegypti: A. Spielman and C. M. Williams .................................................. 1043
Multiple Sclerosis: Correlation between Immunoglobulin-G in Cerebrospinal Fluid and Brain: W. W. Tourtellotte and J. A. Parker .................................................. 1044
Light Reaction in Green Plant Phytosynthesis: A Method of Study: W. Arnold .................................................. 1046
Antimicrobial Specificity of Leukocyte Lysosomal Cationic Proteins: H. I. Zeya and J. K. Spitznagel .................................................................................. 1049
Light-Stimulated Electrical Responses from Skin: H. E. Becker and R. A. Cone .................................................. 1051
Vesicular Stomatitis Virus Replication in Human Leukocyte Cultures: Enhancement by Phytohemagglutinin: R. Edelman and E. F. Wheelock .................................................. 1053
Technical Comments: Protein Synthesis during First Cleavage of Sea Urchin Embryos: H. Timourian .................................................. 1055

ASSOCIATION AFFAIRS

Environmental Pollution: H. B. Stewart, Jr. .................................................. 1056

MEETINGS

Antidepressant Drugs: J. J. Schildkraut; Forthcoming Events .................................................. 1058

COVER

Aerial view looking east along the Taylor Valley, with the terminus of the Taylor Glacier in the foreground. To the right are the Kukri Hills, and beyond is the Ferrar Glacier. Visible in the background are the open waters of McMurdo Sound, the Ross Ice Shelf, and active volcano Mount Erebus on Ross Island. See page 995. [U.S. Navy photograph taken for the U.S. Geological Survey]
