The Bausch & Lomb high intensity Grating Monochromator gives more useful light with any source. Its unique optical system has only two internal reflecting surfaces instead of the conventional four.

You can get exactly what you want in a monochromator now. And, you can be confident the modular "building-block" design will let you interchange gratings, slits and light sources for future needs. There are five grating assemblies. Each covers a section of the total range from 200m to 3.2m. You dial the desired wavelength and you're sure of reproducibility. Choose the appropriate light source: Deuterium Arc, Tungsten Quartz-Iodine, high pressure or super pressure Mercury or a highly stable Xenon. Each one is precisely aligned, prefocused and centered.

Bausch & Lomb offers a complete line of standard and custom built monochromators with the widest range of Certified-Precision Gratings from the world's largest source. Write for Catalog 33-2098, Bausch & Lomb, 20746 Bausch St., Rochester, N.Y. 14602.
We offer the widest choice of calibrated mechanical drives in various sensitivities, plus numerous accessories, including optional tilting and rotating devices, dual assemblies on common baseplates, magnetic chucks, and instrument holders.

Brinkmann Micro Manipulators are available in over 40 basic models. All are in stock for immediate delivery.

**TECHNICAL MARKETING REPRESENTATIVE**

**Diagnostic Reagents**

The rapid expansion of the General Diagnostics Division of Warner-Lambert has created an unusual and challenging opportunity for a scientist with experience in the clinical laboratory, who is interested in applying his technical background to marketing oriented problems. We require an M.S. or Ph.D. in one of the biological sciences, such as biochemistry, microbiology, or hematology. In this position the representative is responsible for establishing and maintaining contacts with scientists who are investigating experimental diagnostic products. Through these contacts he will investigate the diagnostic value of our products, gather information for sales or development use, assist experimenters with publications, and recommend product improvements or new products. The position is headquartered in Morris Plains, New Jersey, and will require travel covering most of the southeastern U.S.

**THIS IS AN OUTSTANDING OPPORTUNITY FOR PROFESSIONAL GROWTH AND ADVANCEMENT.**

To apply, please send resume to:

Mr. R. L. Bowley, Technical Employment

WARNER-LAMBERT
PHARMACEUTICAL COMPANY

201 Tabor Road, Morris Plains, N.J. 07950

An Equal Opportunity Employer (M/F)

---

**PhD. CNS PHARMACOLOGIST**

We are presently working with commercial and federal clients on fundamental and applied research involving drugs of abuse, CNS stimulants and depressants, narcotics and analgesics. Mechanisms of action are of particular interest.

We need an additional staff member with approximately 5 years post-doctoral experience to become involved in this research effort working along with medicinal and bio-organic chemists and clinical pharmacologists.

Opportunity will also include liaison relationships with clients.

Respond to Scott Carson

(617) 864-5770, Ext. 2225

---

**SR. RESEARCH ASSOCIATE in NUTRITIONAL RESEARCH**

To plan, direct and conduct research in a laboratory devoted to basic and applied nutritional studies relating to human nutritional needs. Requires Ph.D. in nutrition and/or biochemistry and approximately 5-10 years' related research experience.

Offers opportunity to head section of an expanding department and to collaborate with clinical research, product development and marketing groups.

Please send resume to:

Dr. Herbert P. Sorett
Director of Nutritional Research

**PERSONNEL PLACEMENT**

POSITIONS WANTED

*Grant and Contracts Administrator, several years of responsible experience with government granting agency. Particularly knowledgeable with technical and fiscal aspects. B.A., M.B.A. 35. Washington area. Box 575, SCIENCE. 10/27*

*Technician, B.S. degree in biology. Experienced preparing sections for electron and light microscopy and in light microscope histochemistry including protein, nucleic acid, and polysaccharide techniques. Box 577, SCIENCE. 10/27*

*Vertebrate Zoologist, Ph.D. Eight years' teaching experience. Publications. Wishes to relocate available September 1968. Box 578, SCIENCE. 10/27*

*Veterinarian Endocrinologist, B. Vet. Sc. (India); Ph.D. January 1968 seeks position related to thyroid physiology, mammary gland growth, reproductve physiology, and or veterinary. Please contact K. N. Sinha, 602B University Village, Columbia, Mo. 65201.*

*Zoologist-Geneticist, Ph.D., University of Chicago; 5 years' research and teaching; genetics, vertebrate zoology, general biology, embryology. Grant. Publications. Seeks teaching, research, or administrative position. Box 579, SCIENCE.*

**MEDICAL MICROBIOLOGIST**

Ph.D.; supervisor hospital section, university medical school teaching, seeks clinical or Public Health appointment. Write WOODWARD PERSONNEL BUREAU, 185 North Wabash, Chicago 60601.

*Immunologist, Ph.D.; teaching, postdoctoral, and scientific writing experience; publications. Desires academic appointment offering teaching or research. Box 585, SCIENCE.*

**POSITIONS OPEN**

Applications are invited for the position of Assistant Professor of Microbiology. Duties include teaching at undergraduate and graduate levels. Qualifications: Ph.D. Microbiology. Major interest in Bacterial Pathology. Salary range $8,700-$11,700. For further details write Dr. G. Dempster, Head of Bacteriology, Medical College, University of Saskatchewan.

Director, Sub-Department of Immunology, Department of Bacteriology and Immunology, University of Western Ontario. Rank of Associate or Full Professor. To direct research and teaching in Immunology within the Department. Address inquiries to Mr. Seymour Berman, Treasurer
BACTERIOLOGIST
Ph.D. or M.S. with experience

RESEARCH ASSISTANT
A position has become available for a B.S. with a major in microbiology to assist in our Department of Bacteriology in a research program in molecular biology.

The Sterling-Winthrop Research Institute is the research division of Sterling Drug Inc., one of the world's largest producers of medicinal agents. Sterling Drug manufactures professional, consumer and industrial products by more than 200 brand name. The Institute employs over 600 people and is engaged in a very active pharmaceutical research program. It is near Albany, on a plateau overlooking the Hudson River Valley.

Salaries open. Excellent employee benefits include educational assistance at local colleges, Travel and moving expenses paid.

Send complete resume to C. E. Alford, Director of Personnel

STERLING-WINTHROP RESEARCH INSTITUTE
RENSSELAER, NEW YORK

An Equal Opportunity Employer

FUNDAMENTAL RESEARCH

MOLECULAR BIOLOGY

A challenging opportunity to implement a basic research program in biochemical mechanisms of viral infections, interferon stimulation and production, and heterologous resistance.

Applicants should possess a Ph.D. (or M.S. with equivalent applicable experience) and have a strong background in biochemistry and virology. Experience in modern techniques of protein-nucleic acid metabolism is essential.

Modern, well-equipped research laboratories are located in the Valley Forge area close to suburban living, yet with easy access to Philadelphia's academic and cultural centers. Publications and attendance at scientific meetings are encouraged. Benefit and salary programs are liberal.

Please submit your resume in confidence to: R. W. Kinney, Ph.D., Director of Scientific Employment

SMITH KLINE & FRENCH LABORATORIES

1552 Spring Garden Street
Philadelphia, Pa. 19101
An Equal Opportunity Employer

FIELD SALES AND SERVICE PERSONNEL

A rapidly growing manufacturer of electro-optical instruments used by research, clinical and industrial laboratories has openings in several major U.S. and Canadian cities for experienced sales and service personnel. Full range of employee benefits.

Please send detailed resume, in confidence, to: N. Jaworowski, Vice-President-Sales, Gifford Instrument Laboratories, Inc., Oberlin, Ohio 44074.

Academic Vacancy Advertisement

The Department of Physiology and Pharmacology, Ontario Veterinary College, University of Guelph, Guelph, Ontario, Canada, requires four faculty members to meet growing teaching and research needs. Applications expected in the following positions are invited to send curriculum vita, grade transcripts, list of publications, names of three referees and letter of interest to Dr. H. G. Downie, Professor and Head of the Department.

1. D.V.M. (or equivalent) with Ph.D. in Pharmacology. Duties include participation in the team approach to teaching undergraduate and graduate Pharmacology, and research in areas of own interest. Rank: Associate Professor.

2. D.V.M. (or equivalent) with Ph.D. in Pharmacology, Toxicology, or Biochemistry. Duties include participation in the team approach to teaching undergraduate and graduate Toxicology and Pharmacology, administrative supervision of a veterinary toxicology laboratory, and research and development in forensic analysis. Rank: Associate Professor.

3. D.V.M. (or equivalent) or Master's degree in any related science. Duties include participation in the team approach to teaching undergraduate Pharmacology. The candidate would be expected to pursue graduate work at the Ph.D. level in Pharmacology. Rank: Assistant Professor.

4. PHYSIOLOGIST with Ph.D. qualification. Duties include instruction in Physiology to Physical Education undergraduates and participation in a laboratory course on Human Physiology. Consideration will be given to candidates with special qualifications in respiratory or cardiovascular physiology. Rank: Assistant Professor.

Moving expenses up to $1,000 will be provided for each position. All salaries are competitive with industry.
