An electronic printing calculator with automatic square root.

The Olivetti Logos 328

Compare it with any printing calculator. The fewest control keys. Automatic square root. Squaring and percentage keys. The most registers. Six in all. The highest capacity. Prints up to 22 digits. The Logos 328. It does a lot more than just print.
a portable FURNACE

Type 1400 furnace

FAST HEAT
For schools, shops or labs to 1650°F (899°C) in 40 minutes.

PORTABLE
Weighs only 16 lbs.; plugs into ordinary outlets.

STEPLESS CONTROLS
To 1900°F (1038°C). Temperature conveniently and accurately held.

ELEMENTS EMBEDDED
Exclusive refractory plates avoid sag and damage.

QUALITY CONSTRUCTION
Welded steel case with thick insulation is strong, long-lasting. Controls kept cool for long life. Newly designed door forms work loading shelf.

Type 1300 — chamber 4” W x 3⅞” H x 4½” D. Price $107.50
Type 1400 — chamber 4½” W x 4⅛” H x 6” D. Price $138.00

BEL-ART for PLASTIC safety products

POLYETHYLENE EYE WASH BOTTLE
DIRECTIONS IN 4 LANGUAGES
Eye injuries treated on the spot...fast and effective. Just apply pressure on flexible bottle. Can be used in standing or supine position.
A captive snap-on cap keeps cup clean and ready for use. Side air-vent, below the cup, acts as a valve for air re-fill of free space in bottle. This prevents draw-back of contaminated wash into bottle. In two sizes...16 oz. and 32 oz.

EMERGENCY EYE WASH STATION
- COLORFUL
- ATTRACTIVE
- DISTINCTIVE
Molded of high-impact plastic, station is readily identifiable and convenient to use. Socket holds eye wash bottle securely and keeps discharge tube in place. Bottle is easily released for quick emergency use.

At your local supply house. Send for NEW 80 page catalog 469 For your FREE copy write Dept. E-8

can the BIOSONIK III® handle your application? try it... 300 WATTS!

There is only one way you can be really sure you’re getting the right probe for the job. Try it!

We’ll be glad to demonstrate the use of the versatile BIOSONIK III — in your laboratory, on your material. Select from six interchangeable probe tips, the one ideal for your work. And you’ll see how the powerful BIOSONIK III with a uniform output of 300 watts allows you a wider range of sample viscosities and working volumes. It has completely solid state circuitry with automatic tuning and stepless intensity control.

But, don’t decide until you’ve seen it work — in your own lab. Call your Bronwill dealer — or write directly to us — for a demonstration.

BRONWILL SCIENTIFIC, INC.
A leader in ultrasonic instrumentation
Box 7824 — Rochester, New York 14606

Circle No. 28 on Readers’ Service Card
Until now you couldn't get power, precision, low cost and small size all in one power supply.

ISCO has changed all that.

The ISCO Model 490 Power Supply provides either constant current or constant voltage with unusual stability, compactness, and light weight. Any current from 0 to 150 ma can be obtained at any voltage from 0 to 1,000 volts. Constant voltage or constant current output will not vary more than ±0.3% throughout the entire range. RMS ripple and noise are less than .02%.

Please request brochure PS37 for complete information.
Here’s Mettler’s latest catalog on analytical balances

This 22-page catalog covers every feature and spec of Mettler’s line of analytical balances. Described are the H balances—from the low-cost student model to automatic printout and sophisticated electronic units. Included are macros, semi-micros, micros and ultra-micros.

All are available from major laboratory supply dealers for demonstration, trial or immediate delivery. For your copy of the catalog, write Mettler Instrument Corp., 20 Nassau Street, Princeton, N.J. 08540.

New 50 Millisecond Response Auto-Attenuator Has Solid State Design

With the new Esterline Angus Auto-Attenuator, you get attenuation rates as fast as 50 milliseconds per step.

Reliable solid state digital logic circuitry automatically selects the optimum span for any high impedance strip chart recorder.

You get maximum resolution readout through a dynamic 12 step range from 1 to 2,048 times the recorder’s basic calibration. Small as well as large signal values can be accommodated.

You can order an on-the-chart record of attenuation changes to tell you exactly what has happened. Prices start at $550.

Where else can you get such a tool for your chromatography and mass spectrometry work?

Get more information. Write or call: Esterline Angus, Division of Esterline Corporation, Box 24000, Indianapolis, Ind. 46224. Phone 317/244-7611.

TSI TAPES AND LABELS

TSI (Time Sterile Indicator) Tapes and Labels are impregnated with a special chemical to change color after autoclaving. Their pressure-sensitive adhesive sticks to any surface, leaves no messy residue. A variety of tapes are available for use with standard and high vacuum autoclaves as well as high temperature ovens. Special TSI Conversion Labels articulate the change from contaminated to sterile. TSI indicators can be imprinted with any wording you desire. Write for complete information.

All Time Tape products are Bacteriostatic for your Safety

CAREMATIC™ANIMAL WATERING SYSTEM

Convenience is just one of the important benefits designed into each Carematic Automatic Animal Watering System. Like most automatic systems, it will enable you and your staff to reduce their time spent on routine duties. But Carematic is no ordinary automatic system! Additional time saving shows up in the fact that the entire system (except the float tank) can be run through cage washers. The drinker valve is auto-

clavable and can be removed for sterilization without shutting down the entire manifold or system. You'll find a Carematic System can be a real labor-saver for you. Send today for details.

NOW . . . a reliable drinker valve

Precision engineered, and produced under rigid specifications, this remarkable valve operates on the diaphragm principle and makes all others appear obsolete. After proper installation, reliable performance is assured by the Teflon valve seat which provides a positive water seal and is resistant to build-up of deposits from material common in most water.
Sigma is pleased to offer

**BLOOD COAGULATION**

**SUBSTRATE PLASMAS AND REAGENTS**

For the specific one-stage determination of blood factors

Each substrate plasma contains sufficient quantity of the remaining clotting factors for the determination. All substrate plasmas offered below are of bovine origin and contain an excess of Fibrinogen and Factor V.

**FACTOR II DEFICIENT PLASMA**

Stock No. B2D

For assay of Factor II using brain thromboplastin

full fidelity
flat field to film

Bausch & Lomb's DynaZoom® Microscope with amplifier and interchangeable camera backs assure you the finest possible photomicrographs. The negative amplifier optical system is tailored to that of the DynaZoom/Flat Field optics to give you truly full fidelity recording of the image detail on the film. Highly resolved, curvature-free images stand out bright and clear. Such performance cannot be matched for anywhere near Bausch & Lomb’s price. But, seeing is believing. We can arrange for you to try a DynaZoom Microscope with camera in your own laboratory.

Meanwhile, we will send you the deluxe Laboratory Microscope brochure, 31-185. Write Bausch & Lomb, 20820 Bausch St., Rochester, New York 14602.

RELIABILITY

is but one feature of an ISCO plant growth chamber.

ISCO plant growth chambers also feature a unique electronic system that provides precise control over temperature and humidity conditions. Relative humidity is limited to fluctuations of only ±2% from 10 to 100% R.H. and temperature variations are maintained with ±½°F. Lighting intensities ranging from 3800 to 8000 footcandles are available.

Light, temperature, and humidity corresponding to those conditions prevailing during night, twilight, and day are easily programmed into ISCO chambers. The twilight period occurs twice a day so the program cycle actually is broken down into four periods, two of which are the same. An optional cam-operated programmer is available which will gradually vary environmental conditions throughout the day.

For complete information on ISCO plant growth chambers, please write for brochure EC 37, or, if you should have any specific questions regarding these chambers, please call the Environmental Chamber Division, (402) 799-2441.

22 AUGUST 1969
A modern research system for rapid lyophilization. Versatile and economical freeze dryers featuring the THIRD DIMENSION ATMO-VAC PLATE.

- **ATMO-VAC PLATE** permits freeze drying without the need for a special vacuum chamber.

- **ATMO-VAC PLATE** uses virtually all containers — stainless steel pans, trays and bowls . . . are converted to freeze drying chambers with this advanced system.

- **ATMO-VAC PLATE** system is implosion-proof. Built-in window in plate permits safe viewing of material during lyophilization.

- **ATMO-VAC PLATE** attaches easily to all “RFS” Atmo-Vac Freeze Dryers. Heavy duty stainless steel, mechanically refrigerated models from -45°C to -80°C.

Write for full details on this unique Atmo-Vac Plate and System
