This 1969 microscope is so versatile it will take 1979 accessories.

And 1989 accessories, too. We make sure the ORTHOPLAN never becomes obsolete by constantly developing new accessories for it.

Right now, the ORTHOPLAN takes plano objective lenses for biological and metallurgical applications, transmitted-light dark-field and incident-light dark-field attachments, photomicrographic accessories for 35 mm, 4" x 5" or Polaroid. And it also takes different light sources—halogen and xenon, for example.

These are just a few of the available attachments that make this fine microscope the most versatile you can buy for your research. The ORTHOPLAN stand is massive, rigid, and is specially designed so when you attach accessories like lamp housings, illuminators and camera equipment, they become an integral part of the microscope—and don't extend out in every direction.

The field of view is up to 2½ times greater than that of conventional wide-field microscopes. It's flat, edge to edge, and the image is superb, thanks to the famous Leitz plano objectives.

Move up to zonals with the greatest of ease.

IEC's systems approach makes it easy to move up to zonals.

Because our system stresses interchangeability. You start with the most complete choice of zonal rotors. All completely interchangeable. Plus a complete, interchangeable effluent and feed seal, seal cap, glassware kit, tool kit, and spare parts kit. So you're always sure you have what you need.

Next, you can get zonal capability in a choice of centrifuges that includes low and high speed refrigerated models, and ultra centrifuges. All capable of handling a variety of zonal, fixed-angle, or swinging-bucket rotors. So your centrifuge investment is always protected. And units in the field can quickly be modified right in your lab.

Finally you get all the help you need from our staff of experts and our fully-equipped applications lab.

To find out how easy it is to take advantage of zonals for research or for routine preparative works, write us at 300 Second Ave., Needham Heights, Mass. 02194. Ask for our free 20-page, full-color zonal brochure. Or call Tom Mulvihill at (617) 444-6700, collect.
