Biological Nitrogen Fixation in Lake Erie: D. L. Howard et al. ........................................ 61
Antimycoplasmal Antibiotics and Hybrid Sterility in Drosophila paulistorum: R. K. Keogh and L. Elman .......................... 63
Tubules of Globoid Leukodystrophy: A Right-Handed Helix: E. J. Yunis and R. E. Lee ...................... 64
DNA-Cell Complex: Macromolecular Content and Stimulation of Enzymatic Activity by Polyadenylic Acid: W. Firestein and R. G. Gillmor .................................................... 66
Selective Destruction of Target Cells by Diphtheria Toxin Conjugated to Antibody Directed against Antigens on the Cells: F. L. Moolten and S. R. Cooperband ........................................ 68
Sex Pheromones: Abolition of Specificity in Hybrid Bark Beetles: G. N. Lanier ......................... 71
Scheie and Hurler Syndromes: Apparent Identity of the Biochemical Defect: U. Wiesmann and E. F. Neufeld .......................................................... 72
Absence of Cystathionase in Human Fetal Liver: Is Cystine Essential?: J. A. Sturman, G. Gauld, N. C. R. Raiha .................................................. 74
Ontogeny of the Estrogen Receptor during Early Uterine Development: J. H. Clark and J. Gorski ........................................................................... 76
Cardiac Glycosides and Distastefulness: Some Observations on the Palatability Spectrum of Butterflies: S. S. Dafey ........................................................................ 78
Ozone Uptake by Bean Leaves: S. Rich, P. E. Waggoner, H. Tomlinson ........................................ 79
Microtubular Spherulites: Development and Growth in Solutions of Bacteriochlorophyll Protein: R. A. Olson ................................................................................. 81
Bronchograms and Tracheograms of Seals under Pressure: G. L. Kooymann, D. D. Hammond, J. P. Schroeder ................................................................. 82
Vascular Perfusion Technique for Nitella Internodal Cells: T. H. Strunk ........................................ 84
DNA Polymerase Activities Associated with Smooth Membranes and Ribosomes from Rat Liver and Hepatoma Cytoplasmin: E. F. Baril et al. .......................................................... 87
Drug Effect Prediction by Computer: E. E. Gloye and R. J. Marcus ............................................... 89
Habituation: Occurrence at a Neuromuscular Junction: J. Bruner and D. Kennedy .................... 92

COVER

"Arrival of the domestic goat on Hawaii Island, about 1779." A composite of tracings from the petroglyphs at Puako, South Kohala District. See review of Mammals in Hawaii, page 45. [Drawn by Marcia Tomich, Honokoa, Hawaii]
