Cloud on 19 May 1968 that is growing explosively 13 minutes after having been seeded with silver iodide pyrotechnics. Height of the cloud top is 11.5 kilometers enroute to a maximum height of approximately 12.5 kilometers. Picture was taken from a DC-6 aircraft flying at 6.1 kilometers over southern Florida. See page 127. [Environmental Science Services Administration Research Laboratories, Coral Gables, Florida]
