Unique Type of Angiosperm Pollen from the Family Annonaceae: J. W. Walker .......... 565
Quadratic Elongation: A Quantitative Measure of Distortion in Coordination Polyhedra: K. Robinson, G. V. Gibbs, P. H. Ribbe .......... 567
Maintenance of Resting Potential in Anoxic Guinea Pig Ventricular Muscle: Electrogenic Sodium Pumping: T. F. McDonald and D. P. MacLeod .......... 570
Lesch-Nyhan Syndrome: Rapid Detection of Heterozygotes by Use of Hair Follicles: S. M. Gartler et al. .......... 572
Deletions in Immunoglobulin Polypeptide Chains as Evidence for Breakage and Repair in DNA: O. Smithies et al. .......... 574
Actinomycin D: Renewed RNA Synthesis after Removal from Mammalian Cells: A. Schluederberg, R. C. Hendel, S. Chavanich .......... 577
Norepinephrine Pools in Rat Brain: Differences in Turnover Rates and Pathways of Metabolism: J. J. Schildkraut, P. R. Draskoczy, P. S. Lo .......... 587
Activity of an NADPH-Dependent Nitroreductase in Houseflies: E. P. Lichtenstein and T. W. Fuhrmann .......... 589
Culex (Melanoconion) aikenii: Natural Vector in Panama of Endemic Venezuelan Encephalitis: P. Galindo and M. A. Grayson .......... 594
Preavoidance Blood Pressure Elevations Accompanied by Heart Rate Decreases in the Dog: D. E. Anderson and J. V. Brady .......... 595
Free Recall and Abstractness of Stimuli: W. Bevan and J. A. Steger .......... 597
Differential Cerebral Processing of Noise and Verbal Stimuli: R. Cohn .......... 599
Acetylcholine Liberation from Cerebral Cortex during Paradoxical (REM) Sleep: H. J. Jasper and J. Tessier .......... 601
Editor's Summary
